Thank you for purchasing the Toshiba Multifunctional Digital System e-STUDIO352/452. This Operator’s Manual describes the following:

- How to set up the Multifunctional Digital System.
- How to operate the functions in the [USER FUNCTIONS] button.

Before using the Multifunctional Digital System, thoroughly read and understand this Operator’s Manual. To ensure that clean copies are made at all times and to keep your Multifunctional Digital System in optimum working order, this Operator’s Manual should be readily available for future reference.

Lineup of Our Manuals

Thank you for purchasing the TOSHIBA multifunctional digital systems e-STUDIO352/452. We have provided you with these manuals for the operation of this equipment. Select and read the manual best suited to your needs.

**Quick Start Guide**
This Quick Start Guide describes the initial setup method of this equipment and accessories of this product such as operator’s manuals and CD-ROMs.

**Operator’s Manual Basic Functions**
This Operator’s Manual Basic Functions describes how to use the basic functions of this equipment mainly focusing on the copying function. Also this manual contains safety precautions for users to be observed. Be sure to read it first carefully.

**User Functions Guide**
This User Functions Guide describes the functions and settings under the [USER FUNCTIONS] button on the control panel of this equipment.

Other guides are provided by the User Documentation CD-ROM in PDF files:

**TopAccess Guide**
This TopAccess Guide explains how to operate and set up the network functions such as the network scanning function and job management, using the TopAccess (Web-based utility) from client computers.
**Network Administration Guide**
This Network Administration Guide explains the guidelines for setting up network servers to provide various network services, and troubleshooting for network administrators.

**Printing Guide**
This Printing Guide explains how to install the client software for printing from Microsoft Windows, Apple Mac OS, and UNIX computers, and print to the equipment.

**Scanning Guide**
This Scanning Guide explains how to operate the scanning function of this equipment.

**e-Filing Guide**
This e-Filing Guide explains how to operate the e-Filing function using the TWAIN driver, File Downloader and e-Filing web utility.

**Network Fax Guide**
This Network Fax Guide explains how to use the network fax function that enable users to operate fax and internet fax sending from a client computer via network.
User Management Guide
This User Management Guide describes how to manage this equipment using the functions of “Department Management”, “User Management Setting” and “User Authentication for Scan to E-mail”.

e-BRIDGE Viewer
The e-BRIDGE Viewer provides the functions to view and find the documents in e-Filing boxes on the TOSHIBA e-STUDIO MULTIFUNCTIONAL DIGITAL SYSTEMS from a client computer via TCP/IP network, and also it can view and find the files in your computer.

To read manuals in PDF (Portable Document Format) files
Viewing and printing this operator’s manual in PDF files require that you install Adobe Reader or Adobe Acrobat Reader on your PC. If Adobe Reader or Adobe Acrobat Reader is not installed on your PC, download and install it from the website of Adobe Systems Incorporated.
Precautions in this manual
To ensure correct and safe use of this equipment, this operator’s manual describes safety precautions according to the three levels shown below. You should fully understand the meaning and importance of these items before reading this manual.

- **Caution**
  Indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury, partial damage of the equipment or surrounding assets, or loss of data.

- **Note**
  Indicates a procedure you should follow to ensure the optimal performance of the equipment and problem-free copying.

Other than the above, this manual also describes information that may be useful for the operation of this equipment with the following signage:

- **Tip**
  Describes handy information that is useful to know when operating the equipment.

- **Pages describing items related to what you are currently doing. See these pages as required.**
1. MANAGING ADDRESS BOOK (ADDRESS MENU)

1. MANAGING ADDRESS BOOK
   • About Managing Contacts in Address Book
   • Registering Contacts
   • Editing Contacts
   • Deleting Contacts
   • Searching Contacts

2. MANAGING GROUPS
   • About Managing Groups in Address Book
   • Creating New Group
   • Editing Groups
   • Deleting Groups
   • Searching Groups
1. MANAGING ADDRESS BOOK

About Managing Contacts in Address Book

The Address Book contents are entered using the [ADDRESS] button. The Address Book contents are used for Facsimile and Scan to E-mail.

In Address Book, you can register up to 1000 contacts that can contain a fax number, an E-mail address, or both in each contact. Also you can specify the option settings for the fax transmission in each contact, such as Transmission type, ECM, Quality transmission, Line select, and subaddress settings.

Note

- You can register the E-mail addresses in the Address Book, however, you can use them to specify the destinations for Scan to E-mail or Internet Fax only when the Scanner Kit is installed, or when the Printer/Scanner Kit is installed.
- You can register the fax numbers in the Address Book, however, you can use them to specify the destinations for fax transmission only when the optional Fax unit is installed.

In the Address Book button menu, you can perform following operations to manage contacts.

- P.9 “Registering Contacts”
- P.12 “Editing Contacts”
- P.14 “Deleting Contacts”
- P.16 “Searching Contacts”
Registering Contacts

The following procedure describes how to register new contact in the Address Book.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [ADDRESS] button, and then press the [ADDRESS BOOK] button on the touch panel.

   - The ADDRESS BOOK screen is displayed.

3. Press undefined button that you want to register new contact and press the [ENTRY] button.

   - The ADDRESS BOOK REGISTRATION screen is displayed.

   **Tip**
   If the touch panel does not display an undefined contact, press the [Next] button to display the next screen.
4 Press each button on the touch panel to enter following contact information.

<table>
<thead>
<tr>
<th>ADDRESS BOOK REGISTRATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIRST NAME</td>
</tr>
<tr>
<td>User04</td>
</tr>
<tr>
<td>E-MAIL</td>
</tr>
<tr>
<td><a href="mailto:user04@fax.com">user04@fax.com</a></td>
</tr>
</tbody>
</table>

- **[FIRST NAME]** — Enter the first name of the contact. This name will appear in the address book list on the touch panel.
- **[LAST NAME]** — Enter the last name of the contact. This name will appear in the address book list on the touch panel.
- **[FAX NO.]** — Enter the fax number of the contact.
- **[2ND FAX]** — Enter the second fax number of the contact.
- **[E-MAIL]** — Enter the E-mail address of the contact.
- **[CORP.]** — Enter the company name of the contact.
- **[DEPT.]** — Enter the department name of the contact.
- **[KEYWORD]** — Enter the keyword of the contact. This keyword can be used to search for this contact.

**Note**

- You must at least enter either the [FIRST NAME] or [LAST NAME] button, and either the [FAX NO.] or [E-MAIL] button to register the contact.
- If you enter "-" in the [FAX NO.] and [2ND FAX], three seconds pause is added for dialing the fax number.

**Tip**

When you press each button, the input screen is displayed. Enter the value using the keyboard and digital keys and press the [ENTER] button to set the entry.

5 Press the [OPTION] button to specify the default settings for a fax transmission.

**Note**

This is available only when the optional fax unit is installed.
Specify following items as you required.

- **TX TYPE** — This sets the type of the fax transmission mode. Press the [MEMORY TX] button to select the memory transmission mode or the [DIRECT TX] button to select the direct transmission mode.
- **ECM** — Select whether enabling or disabling the ECM (Error Correction Mode) to automatically resend any portion of the document affected by phone line noise or distortion. Press the [ON] button to enable the ECM, or the [OFF] button to disable the ECM.
- **QUALITY TX** — Select whether a document is sent in the Quality TX mode. This feature allows to send a document at a slower speed than a normal so that the transmission will be less affected by line condition. Press the [ON] button to enable the Quality TX, or [OFF] button to disable the Quality TX.
- **LINE SELECT** — Select the line to be used for the fax transmission. Press the [LINE1] button to use the Line 1, or [LINE2] button to use Line 2. The [LINE2] button can be selected only when the optional 2nd line board is installed.
- **[SUB]** — Enter the mailbox number if you want to send originals to the mailbox in the remote fax.
- **[SID]** — Enter the password to input a document into the mailbox in the remote facsimile.
- **[SEP]** — Enter the mailbox number if you want to retrieve a document from the mailbox in the remote fax.
- **[PWD]** — Enter the password to retrieve a document from the mailbox in the remote facsimile.

**Tip**

When you press the [SUB], [SID], [SEP], and [PWD] buttons, the input screen is displayed. Enter the value using the keyboard and digital keys, and press the [ENTER] button to set the entry.

7 Press the [ENTER] button to save option settings.

8 Press the [ENTER] button to register the contact.
Editing Contacts

The following procedure describes how to edit existing contacts in the Address Book.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [ADDRESS] button, and then press the [ADDRESS BOOK] button on the touch panel.

3. Press the contact that you want to edit and press the [EDIT] button.

Tips

• If the touch panel does not display the contact that you want to edit, press the [Next] button to display the next screen.
• You can quickly search for the contact that you want to edit. To search for the contact, see the “Searching Contacts”. P.16
4 Press each button on the touch panel to edit the contact information.

• For the description of each item, see the Step 4 in the procedure of "Registering Contacts" in the previous section.

5 Press the [OPTION] button to specify the default settings for a fax transmission.

**Note**
This is available only when the optional fax unit is installed.

6 Specify the items as you required.

• For the description of each item, see the Step 6 in the procedure of "Registering Contacts" in the previous section.

7 Press the [ENTER] button to save option settings.

8 Press the [ENTER] button to save the contact.

• The contact is edited.
1. MANAGING ADDRESS BOOK (ADDRESS MENU)

Deleting Contacts

The following procedure describes how to delete existing contact in the Address Book.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [ADDRESS] button, and then press the [ADDRESS BOOK] button on the touch panel.

   • The ADDRESS BOOK screen is displayed.

3. Press the contact that you want to delete and press the [DELETE] button.

   • The delete confirmation screen is displayed.

Tip

If the touch panel does not display the contact that you want to delete, press the [Next] button to display the next screen.
4 Press the [YES] button to delete the contact, or the [NO] button to cancel deleting.

• When you press the [YES] button, the selected contact is deleted.
Searching Contacts

The following procedure describes how to search for contacts in the Address Book. This function is useful to find the contact that you want to edit. You can search for the contacts by entering an ID number or the search strings.

Searching a Contact by ID Number

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [ADDRESS] button, and then press the [ADDRESS BOOK] button on the touch panel.

3. Press the [KNOWN ID] button.

4. Enter the ID Number using the digital keys and press the [ENTER] button.
The touch panel displays the screen that contains the searched contact. Press the contact and press the [EDIT] button to edit the contact information, or press the [DELETE] button to delete the contact.

See “Editing Contacts” for the instruction to edit the contact. P.12

### Searching Contacts by Entering Search String

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [ADDRESS] button, and then press the [ADDRESS BOOK] button on the touch panel.

   - The ADDRESS BOOK screen is displayed.

3. Press the [SEARCH ADDRESS] button.

   - The SEARCH ADDRESS screen is displayed.
4 Press the button that is used for searching to specify the search string.

5 Enter the search string using the keyboard and digital keys, and press the [ENTER] button.

Tip
It will search for the contacts that contain the search text in the specified items.

6 Specify the search string in the items that you require and press the [SEARCH] button.
7 The touch panel displays the screen that contains the searched contacts. Press the contact and press the [ENTER] button to edit the contact information.

- See “Editing Contacts” for the instruction to edit the contact. [P.12]
2. MANAGING GROUPS

About Managing Groups in Address Book

You can create groups that contain the multiple members of contacts. This enables you to specify the groups instead of specifying each recipient separately when operating Scan to E-mail, or fax or Internet Fax transmission. You can also delete groups.

In Address Book, you can register up to 200 groups and each group can contain up to 400 members.

Note

- One fax number or one E-mail address is counted as one destination. If you select the contact that contains both fax number and E-mail address, it results in two destinations in the group.
- You can register the E-mail addresses in the Groups, however, you can use them to specify the destinations for Scan to E-mail or Internet Fax only when the Scanner Kit is installed, or when the Printer/Scanner Kit is installed.
- You can register the fax numbers in the Groups, however, you can use them to specify the destinations for fax transmission only when the optional Fax unit is installed.

In the Group button menu, you can perform following operations to manage groups.

- P.21 “Creating New Group”
- P.24 “Editing Groups”
- P.30 “Deleting Groups”
- P.32 “Searching Groups”
Creating New Group

The following procedure describes how to create a new group in the Address Book.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [ADDRESS] button, and then press the [GROUP] button on the touch panel.

   • The GROUP screen is displayed.

3. Press undefined button that you want to create a new group and press the [ENTRY] button.

   • The GROUP NO. REGISTRATION screen is displayed.

   **Tip**

   If the touch panel does not display an undefined group, press the [Next] button to display the next screen.

4. Press the [GROUP NAME] button.

   • The input screen is displayed.
5 Enter the group name using the keyboard and digital keys, and press the [ENTER] button.

6 Press the [ENTER] button.

7 Select the contacts that you want to add to the group, and then press the [ENTER] button.

- To add or remove the contacts by selecting each contacts manually, see “Adding or Removing Contacts”. P.26
- To add the contacts by searching them with the ID number, see “Adding Contacts by Searching with ID Number”. P.27
- To add the contacts by searching them with search string, see “Adding Contacts by Searching with Search String”. P.28
New Group is created and appears on the touch panel.

2. MANAGING GROUPS (Cont.)

Editing Groups

The following procedure describes how to edit the name of groups, add or remove the members in groups.

Editing Group Name

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [ADDRESS] button, and then press the [GROUP] button on the touch panel.

3. Press the group that you want to edit and press the [EDIT] button.

   Tip

   If the touch panel does not display the group that you want to edit, press the [Next] button to display the next screen.
4 Press the [GROUP NAME] button to edit the group name.

5 Enter the group name using the keyboard and digital keys, and press the [ENTER] button.

6 Press the [ENTER] button.

- The input screen is displayed.

- The CHECK OF GROUP MEMBER screen is displayed.
7 In the screen, the contacts that have been registered in the group are highlighted.

To add or remove the contacts by selecting each contact manually, see "Adding or Removing Contacts". P.26
To add the contacts by searching them with the ID number, see "Adding Contacts by Searching with ID Number". P.27
To add the contacts by searching them with search string, see "Adding Contacts by Searching with Search String". P.28

8 To finish editing the group, press the [ENTER] key to save the settings.

Adding or Removing Contacts

1 Press the contacts that are not highlighted to add to the group, or press the highlighted contacts to remove from the group.

- To add both the fax number and E-mail address of a contact to the group, press over the contact name.
- To add only the fax number of a contact to the group, press the [FAX] button of the contact.
- To add only the E-mail address of a contact to the group, press the [E-MAIL] button of the contact.

Tips
- Press the [Prev] button or [Next] button to display the contacts in the different page.
- You can also clear the all highlighted contacts by pressing the [ALL CLEAR] button.

2 Press the [ENTER] button to save the group.
- The group is modified.
Adding Contacts by Searching with ID Number

1 Press the [KNOWN ID] button.

![Search ID Screen]

- The KNOWN ID screen is displayed.

2 Enter the ID Number using the digital keys and press the [ENTER] button.

![Enter ID Number Screen]

3 The touch panel displays the screen that contains the searched contact. Press the contact to be added to the group.

![Contact Screen]

- To add both the fax number and E-mail address of a contact to the group, press over the contact name.
- To add only the fax number of a contact to the group, press the [FAX] button of the contact.
- To add only the E-mail address of a contact to the group, press the [E-MAIL] button of the contact.

Tips

- Press the [Prev] button or [Next] button to display the contacts in the different page.
- You can also clear the all highlighted contacts by pressing the [ALL CLEAR] button.
4 Press the [ENTER] button to add to the group.
  - The contacts in the group are modified.

Adding Contacts by Searching with Search String

1 Press the [SEARCH ADDRESS] button.

2 Press the button that is used for searching to specify the search string.

3 Enter the search string using the keyboard and digital keys, and press the [ENTER] button.

Tip

It will search for the contacts that contain the search string in the specified items.
4 Specify the search string in the items that you require and press the [SEARCH] button.

5 The touch panel displays the screen that contains the searched contacts. Press the contacts that you want to add to the group.

- To add both the fax number and E-mail address of a contact to the group, press over the contact name.
- To add only the fax number of a contact to the group, press the [FAX] button of the contact.
- To add only the E-mail address of a contact to the group, press the [E-MAIL] button of the contact.

**Tip**

Press the [Prev] button or [Next] button to display the contacts in the different page.

6 Press the [ENTER] button to save the group.

- The contacts in the group are modified.
Deleting Groups

The following procedure describes how to delete a group in the Address Book.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [ADDRESS] button, and then press the [GROUP] button on the touch panel.

   • The GROUP screen is displayed.

3. Press the group that you want to delete and press the [DELETE] button.

   • The delete confirmation screen is displayed.

   **Tip**
   
   If the touch panel does not display the group that you want to delete, press the [Next] button to display the next screen.
4 Press the [YES] button to delete the contact, or [NO] button to cancel deleting.

- When you press the [YES] button, the selected group is deleted.
Searching Groups

The following procedure describes how to search for groups in the Address Book. This function is useful to find the contact that you want to edit. You can search for the groups by entering the ID number or the search string.

Searching a Group by ID Number

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [ADDRESS] button, and then press the [GROUP] button on the touch panel.

3. Press the [KNOWN ID] button.

4. Enter the ID Number using the digital keys and press the [ENTER] button.
5 The touch panel displays the screen that contains the searched group. Press the group and press the [EDIT] button to edit the group information.

![Image of the touch panel displaying a list of groups]

- See “Editing Groups” for the instruction to edit the group. P.24

Searching Groups by Group Name

1 Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2 Press the [ADDRESS] button, and then press the [GROUP] button on the touch panel.

![Image of the touch panel showing the ADDRESS and GROUP buttons]

- The GROUP screen is displayed.

3 Press the [SEARCH GROUP] button.

![Image of the touch panel showing the SEARCH GROUP button]

- The SEARCH GROUP screen is displayed.
4 Press the [GROUP NAME] button to specify the search string.

- The input screen is displayed.

5 Enter the search string using the keyboard and digital keys, and press the [ENTER] button.

It will search for the groups that contain the search string in the group name field.

6 Press the [SEARCH] button.
7 The touch panel displays the screen that contains the searched groups. Press the group and press the [ENTER] button to edit the group information.

- See "Editing Groups" for the instruction to edit the contact. P.24
Confirming the Members of the Groups

The following procedure describes how to confirm the contacts that are added in the group.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [ADDRESS] button, and then press the [GROUP] button on the touch panel.

3. Press the [CONTENTS] button of the group that you want to confirm the members.

4. The contacts added to the group are displayed.

1. TOTAL COUNTER

Displaying Print Counter

This feature allows you to display the Print Counter.

The print counter contains following counters:
- **Copy Counter** — indicates the number of sheets that have been printed by copy operations.
- **Fax Counter** — indicates the number of sheets that have been printed by fax receptions.
- **Printer Counter** — indicates the number of sheets that have been printed by print operations and E-mail receptions (Internet Fax receptions).
- **List Counter** — indicates the number of sheets that have been printed by system page print operations.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [COUNTER] button, and then press the [TOTAL COUNTER] button on the touch panel.

   - The TOTAL COUNTER menu is displayed.

3. Press the [PRINT COUNTER] button.

   - The PRINT COUNTER is displayed.

4. The Print Counter is displayed.
Displaying Scan Counter

This feature allows you to display the Scan Counter.

The scan counter contains following counters:
- **Copy Counter** — indicates the number of originals that have been scanned by copy operations.
- **Fax Counter** — indicates the number of originals that have been scanned by fax and Internet Fax transmissions.
- **Network Counter** — indicates the number of originals that have been scanned by scan operations.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.
2. Press the [COUNTER] button, and then press the [TOTAL COUNTER] button on the touch panel.
   - The TOTAL COUNTER menu is displayed.
3. Press the [SCAN COUNTER] button.
4. The Scan Counter is displayed.
2. PRINT OUT TOTAL COUNTER

This feature allows you to print the total counter list.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [COUNTER] button, and then press the [PRINT OUT TOTAL COUNTER] button on the touch panel.

• The total counter list is printed.

Tip

For an output example of the total counter list, see "Total Counter List". P.172
3. DEPARTMENT COUNTER

Displaying Print Counter for Department Code

This feature allows you to display the number of the print counter for each department code.

**Note**
The department counter is available only when this equipment has been managed with the department code. [P.47 “4. MANAGING DEPARTMENT CODE”]

The print counter contains the following counters:
- **Copy Counter** — indicates the number of sheets that have been printed by copy operations.
- **Fax Counter** — indicates the number of sheets that have been printed by polling operations.
- **Printer Counter** — indicates the number of sheets that have been printed by print operations.
- **List Counter** — indicates the number of sheets that have been printed by system page print operations.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [COUNTER] button, and then press the [DEPARTMENT COUNTER] button on the touch panel.

![Department Counter Screen]

- The DEPARTMENT CODE screen is displayed.

3. Enter the department number using the digital keys, and then press the [ENTER] button.

![Department Code Input Screen]
4 Press the [PRINT COUNTER] button.

5 The Print Counter for the specified department code is displayed.
Displaying Scan Counter for Department Code

This feature allows you to display the number of the scan counter for each department code.

**Note**
The department counter is available only when this equipment has been managed with the department code. P.47 "4.MANAGING DEPARTMENT CODE"

The scan counter contains following counters:
- **Copy Counter** — indicates the number of originals that have been scanned by copy operations.
- **Fax Counter** — indicates the number of originals that have been scanned by fax and Internet Fax transmissions.
- **Network Counter** — indicates the number of originals that have been scanned by scan operations.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.
2. Press the [COUNTER] button, and then press the [DEPARTMENT COUNTER] button on the touch panel.
   - The DEPARTMENT CODE screen is displayed.
3. Enter the department number using the digital keys, and then press the [ENTER] button.
4 Press the [SCAN COUNTER] button.

5 The Scan Counter for the specified department code is displayed.
Displaying Fax Communication Counter for Department Code

This feature allows you to display the number of the Fax and Internet Fax Transmission and Reception counter for each department code.

**Note**

The department counter is available only when this equipment has been managed with the department code. P.47 "4.MANAGING DEPARTMENT CODE"

The fax communication counter contains following counters:
- **Transmit** — indicates the number of pages that are sent by Fax transmissions.
- **Reception** — indicates the number of pages that are received by polling operations.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [COUNTER] button, and then press the [DEPARTMENT COUNTER] button on the touch panel.

   ![Department Counter Screen]

   - The DEPARTMENT CODE screen is displayed.

3. Enter the department number using the digital keys, and then press the [ENTER] button.

   ![Enter Department Code]

   **Enter Department Code**
   - Key in the Department Code and Press ENTER

   - Department Code:
4 Press the [FAX COMMUNICATION] button.

5 The Fax Communication Counter for the specified department code is displayed.
4. MANAGING DEPARTMENT CODE

Logging On As Administrator

You can audit the copy quantity of copy, print, scan, and facsimile pages performed by setting a department code. Up to 1000 department codes can be registered.

To manage the department code, you must know the administrator password for this equipment. Therefore, it is recommended to be performed by an authorized administrator in your place.

**Note**

If the User Management Setting is enabled and you login with the user name that has the Account Manager privilege, you do not have to enter the administrator password to display the DEPARTMENT MANAGEMENT menu.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [COUNTER] button, and then press the [DEPARTMENT MANAGEMENT] button on the touch panel.

   ![Panel Display](image)

   - The ADMINISTRATOR PASSWORD screen is displayed.

3. Press the [PASSWORD] button.

   ![Panel Display](image)

   - The input screen is displayed.
4. MANAGING DEPARTMENT CODE (Cont.)

4. Enter the administrator password and press the [ENTER] button.

- The DEPT. MANAGEMENT menu is displayed.

5. Continue the operation that you want.

- P.49 “Printing Department Codes List”
- P.50 “Enabling Department Code”
- P.51 “Resetting All Department Counters”
- P.52 “Deleting All Department Codes”
- P.53 “Registering a New Department Code”
- P.56 “Editing the Department Code”
- P.60 “Deleting the Department Code”
- P.62 “Resetting the Counter of Each Department”
- P.64 “Setting Output Limitations for All Departments”
Printing Department Codes List

You can print out the department codes list and counters for each department code.

1 In the DEPT. MANAGEMENT menu, press the [PRINT OUT DEPARTMENT CODES] button.

- Printing begins.

**Tips**

- For the procedure to display the screen above, see “Logging On As Administrator”. P.47
- For an output example of the department code list, see “Department Code List”. P.173
Enabling Department Code

In the initial setting, the department code feature is disabled. If you want to manage the counter separately by the department codes, you must enable the department code. When the department management is enabled, the department code input screen will be displayed before entering the copy, scan, fax, and e-Filing operation screen to manage the operations for each department code. Also the print jobs that are sent from computers can be managed for each department code.

**Note**

- The [DEPARTMENT MANAGEMENT] button will be available after registering a department code. Before enabling the department code, register the required department code. P.53 “Registering a New Department Code”
- Using TopAccess, you can also configure the Department Code Enforcement setting that sets whether the invalid jobs, which a department code is not specified or invalid department code is specified, will be printed or stored in the invalid job list when the department management is enabled. For instructions on how to set the Department Code Enforcement, see *TopAccess Guide*.

1. In the DEPT. MANAGEMENT menu, press the [DEPARTMENT MANAGEMENT] button.

   ![Department Management Screen]

   - The DEPARTMENT MANAGEMENT screen is displayed.

2. Press the [ENABLE] button to enable the department code, or [DISABLE] button to disable the department code.

   ![Enable/Disable Department Code]

   For the procedure to display the screen above, see “Logging On As Administrator”. P.47
Resetting All Department Counters

This function clears all department counters to “0”.

**Note**
- This function is available only when the department code is enabled.
- This function clears only the department counters. You cannot clear the total counter.

1. In the DEPT. MANAGEMENT menu, press the [RESET ALL COUNTERS] button.

   ![DEPT. MANAGEMENT Menu]

   - The clear confirmation screen is displayed.

2. Press the [YES] button to clear all department counters, or [NO] button to cancel clearing.

   ![Clear Confirmation Screen]
Deleting All Department Codes

This function deletes all department codes that have been registered.

**Note**
The [DELETE ALL] button will be available after registering a department code.

P.53 “Registering a New Department Code”

1. In the DEPT. MANAGEMENT menu, press the [DELETE ALL] button.

   ![DEPT. MANAGEMENT menu](image)

   - The delete confirmation screen is displayed.

   **Tip**
   For the procedure to display the screen above, see “Logging On As Administrator”. P.47

2. Press the [YES] button to delete all department codes, or [NO] button to cancel deleting.
Registering a New Department Code

The function allows you to register new department code.

Note

After registering the department code(s), you must enable the Department Code function. ☑️ P.50 “Enabling Department Code”

1 In the DEPT. MANAGEMENT menu, press the [DEPARTMENT REGISTRATION] button.

- The DEPARTMENT CODE screen is displayed.

Tip

For the procedure to display the screen above, see “Logging On As Administrator”. ☑️ P.47

2 Press the undefined department code and press the [CHANGE] button.

- The input screen is displayed.

Tip

If the touch panel does not display an undefined department code, press the [Next] button to display the next screen.
3 Enter the department name using the keyboard and digital keys, and press the [ENTER] button.

- The REGISTRATION DEPARTMENT CODE screen is displayed.

4 Enter the 5-digit code in the “New Code” field using the digital keys, and then press the [SET] button to set the entry.

- If you enter the code, asterisks (*) appear in the “New Code” field.
- If you want to clear the code to retype it, press the [CLEAR] button on the Control Panel.
- After pressing the [SET] button, the “Retype New Code” field is highlighted.

**Note**

The department code must be the 5-digit code except “00000”.

5 Enter the 5-digit code again in the “Retype New Code” field using the digital keys, and then press the [SET] button to set the entry.

- If you enter the code, asterisks (*) appear in the “Retype New Code” field.
- If you want to clear the code to retype it, press the [CLEAR] button on the Control Panel.
If you want to return to the “New Code” field to retype it, press the [RESET] button.

6 Press the [ENTER] button at the bottom of the touch panel.
   • The LIMITATION screen is displayed.

7 Set the limitation of this department code as required.

• Press the [ON] button to enable the output limitation for this department code. When you select the [ON] button, press the “Limitation” field and enter the maximum number of the outputs for this department code using the digital keys. You can enter up to “99999999”. If you do not set the output limitation for outputs, press the [OFF] button.

Note
• If you enter “0” for the limitation, it will disable printing any copies or prints using this department code.
• When the number of outputs exceeds the limitation during the job is being printed, few copies that exceeds the limitation are printed and counted because the equipment cannot stop the job immediately.

8 Press the [ENTER] button.
   • New department code is registered.
Editing the Department Code

The function allows you to edit the existing department code.

1. In the DEPT. MANAGEMENT menu, press the [DEPARTMENT REGISTRATION] button.

   • The DEPARTMENT CODE screen is displayed.

   Tip
   For the procedure to display the screen above, see “Logging On As Administrator”.  P.47

2. Press the department button that you want to edit and press the [CHANGE] button.

   • The message “This department code is already registered. Do you wish to replace this code?” is displayed.

   Tip
   If the touch panel does not display the department code that you want to edit, press the [Next] button to display the next screen.
3 Press the [ENTER] button.

• The input screen is displayed.

4 Enter the department name using the keyboard and digital keys, and press the [ENTER] button.

• The CHANGE DEPARTMENT CODE screen is displayed.

5 Enter current department code in the “Current Code” field using the digital keys, and then press the [SET] button to set the entry.

• If you enter the code, asterisks (*) appear in the “Current Code” field.
• If you want to clear the code to retype it, press the [CLEAR] button on the Control Panel.
• After pressing the [SET] button, the “New Code” field is highlighted.
6 Enter new 5-digit code in the “New Code” field using the digital keys, and then press the [SET] button to set the entry.

- If you enter the code, asterisks (*) appear in the “New Code” field.
- If you want to clear the code to retype it, press the [CLEAR] button on the Control Panel.
- After pressing the [SET] button, the “Retype New Code” field is highlighted.

Note

The department code must be the 5-digit code except “00000”.

Tip

If you want to return to the “Current Code” field to retype it, press the [RESET] button.

7 Enter new 5-digit code again in the “Retype New Code” field using the digital keys, and then press the [SET] button to set the entry.

- If you enter the code, asterisks (*) appear in the “Retype New Code” field.
- If you want to clear the code to retype it, press the [CLEAR] button on the Control Panel.

Tip

If you want to return to the “Current Code” field or “New Code” field to retype them, press the [RESET] button.

8 Press the [ENTER] button at the bottom of the touch panel.

- The LIMITATION screen is displayed.
Set the limitation of this department code as required.

9 Press the [ON] button to enable the output limitation for this department code. When you select the [ON] button, press the “Limitation” field and enter the maximum number of the outputs for this department code using the digital keys. You can enter up to “99999999”. If you do not set the output limitation for outputs, press the [OFF] button.

Note

- If you enter “0” for the limitation, it will disable printing any copies or prints using this department code.
- When the number of outputs exceeds the limitation during the job is being printed, few copies that exceeds the limitation are printed and counted because the equipment cannot stop the job immediately.

10 Press the [ENTER] button.

- The department code is edited.
Deleting the Department Code

The function allows you to delete the existing department code.

1. In the DEPT. MANAGEMENT menu, press the [DEPARTMENT REGISTRATION] button.

   • The DEPARTMENT CODE screen is displayed.

   **Tip**

   For the procedure to display the screen above, see “Logging On As Administrator”. P.47

2. Press the department button that you want to delete and press the [DELETE] button.

   • The delete confirmation screen is displayed.

   **Tip**

   If the touch panel does not display the department code that you want to delete, press the [Next] button to display the next screen.
3 Press the [YES] button to delete the department code, or [NO] button to cancel deleting.

- When you press the [YES] button, the department code is deleted.
Resetting the Counter of Each Department

The function allows you to reset the counter of specific department code only.

1 In the DEPT. MANAGEMENT menu, press the [DEPARTMENT REGISTRATION] button.

- The DEPARTMENT CODE screen is displayed.

Tip
For the procedure to display the screen above, see "Logging On As Administrator". P.47

2 Press the department button that you want to reset the counter and press the [RESET COUNTERS] button.

- The clear confirmation screen is displayed.

Tip
If the touch panel does not display the department code that you want to clear the counter, press the [Next] button to display the next screen.
Press the [YES] button to clear the counter of the department code, or [NO] button to cancel clearing the counter.

- When you press the [YES] button, the counter of the department code is cleared.
Setting Output Limitations for All Departments

This function allows you to set the output limitation for all departments by a single operation.

When you select [ON], the output will be disabled for all departments.

When you select [OFF], the infinite outputs will be allowed for all departments.

Tip

When you select [ON], the limitation setting for each department code will be set to [ON] and the “Limitation” field will be set to “0”. If you want to change the limitation setting for each department code, change the limitation setting by editing a department code.

P.56 “Editing the Department Code”

1 In the DEPT. MANAGEMENT menu, press the [ALL LIMIT] button.

2 Press the [ON] button to disable the copies/prints for all departments, or [OFF] button to permit infinite copies/prints for all departments.

3 Press the [ENTER] button.

   • The output limitation settings are saved. This operation can take a period time to complete. Please wait until the “Wait” message is not longer displayed.
3. SETTING ITEMS (USER)

1. SETTING GENERAL FUNCTIONS
   - Setting the Auto Clear Mode
   - Changing the Display Language
   - Setting the Reversed Display Mode

2. SETTING COPY FUNCTIONS

3. SETTING FAX FUNCTIONS

4. SETTING SCAN FUNCTIONS

5. PRINTING LISTS
   - Printing the Address Book List
   - Printing the Group Numbers List
   - Printing the Function List (User)

6. CHECKING E-MAIL

7. SETTING DRAWER

8. TURN OFF THE POWER (SHUT DOWN)

9. SETTING BIP PRINTING
1. SETTING GENERAL FUNCTIONS

Setting the Auto Clear Mode

This function sets how long the machine waits before clearing the previous functions set on the control panel.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [USER] button, and then press the [GENERAL] button on the touch panel.

   • The GENERAL menu is displayed.

3. Press the [AUTO CLEAR] button.

   • The AUTO CLEAR screen is displayed.

4. Press the button that indicates the desired time in seconds.

   • The Auto Clear mode has been set to selected time.

Tips

• If you want to disable the Auto Clear mode, press the [NO LIMIT] button.
• Even if the [NO LIMIT] button is selected, the screen will be cleared after 45 seconds in case that users operate in the USER FUNCTION, JOB STATUS, or TEMPLATE screen.
Changing the Display Language

The language used on the touch panel can be changed to a different one.

1 Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2 Press the [USER] button, and then press the [GENERAL] button on the touch panel.

• The GENERAL menu is displayed.

3 Press the [CHANGE LANGUAGE] button.

• The CHANGE LANGUAGE screen is displayed.

4 Press the desired language button.

• The touch panel is displayed in the selected language.
Setting the Reversed Display Mode

You can change the touch panel to be displayed in the Reversed Display mode (which the white portion will be black and the black portion will be white). Changing to the Reversed Display mode helps you to display the touch panel more clearly where it is too bright to see the touch panel.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.
2. Press the [USER] button, and then press the [GENERAL] button on the touch panel.
   - The GENERAL menu is displayed.
3. Press the [REVERSED DISPLAY] button.
   - The REVERSED DISPLAY screen is displayed.
4 Press the [ON] button to enable the Reversed Display, or [OFF] button to disable the Reversed Display.

- When you select the [ON] button, the touch panel is displayed in the Reversed Display mode.
2. SETTING COPY FUNCTIONS

You can change the initial setting (default setting) of copy job.

1 Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2 Press the [USER] button, and then press the [COPY] button on the touch panel.

   - The COPY screen is displayed.

3 Specify the following items as you require.

   - In the “EXPOSURE MODE” option, press the desired mode button.
   - In the “ORIGINAL MODE” option, press the desired mode button.
   - In the “IMAGE DIRECTION” option, press the desired mode button. For more descriptions for the IMAGE DIRECTION option, please refer to the Operator’s Manual For Basic Function.
   - In the “BYPASS FEED” option, press the desired media type button.

   Tip

For more information about the paper type, please see the Operator’s Manual For Basic Functions.

4 Press the [ENTER] button.

   - To enable the default settings you have changed, press the [FUNCTION CLEAR] button after pressing the [ENTER] button. Or wait until the automatic function clear works. For details of this function, see P.66 “Setting the Auto Clear Mode”.

   - In the “ORIGINAL MODE” option, press the desired mode button.
   - In the “IMAGE DIRECTION” option, press the desired mode button. For more descriptions for the IMAGE DIRECTION option, please refer to the Operator’s Manual For Basic Function.
   - In the “BYPASS FEED” option, press the desired media type button.
3. SETTING FAX FUNCTIONS

You can change the initial setting (default setting) of fax and Internet Fax features.

**Note**

The [FAX] button in the [USER] menu will be available only when the Scanner Kit or Printer/Scanner Kit is installed, or when the optional Fax unit is installed.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [USER] button, and then press the [FAX] button on the touch panel.

   - The FAX screen is displayed.

3. Specify the following items as you require.

   - In the "RESOLUTION" option, press the desired mode button.
   - In the "ORIGINAL MODE" option, press the desired mode button.
   - In the "EXPOSURE" option, press light or dark buttons to specify the default exposure manually, or press the [AUTO] button to select auto mode for the default exposure mode.
   - In the "TX TYPE" option, press the desired mode button.
     - **[MEMORY TX]** — Press this to set the Memory TX mode as default transmission mode that will send after scanning and saving all originals in the memory. This mode enables multi-address transmission.
     - **[DIRECT TX]** — Press this to set the Direct TX mode as default transmission mode that will send originals page by page after every original has been scanned. This mode disables multi-address transmission.

   **Note**

   The “TX TYPE” option is available only when the optional Fax unit is installed.

4. Press the [Next] button to display the next screen.
5 Specify the following items as you require.

<table>
<thead>
<tr>
<th>ADDRESS</th>
<th>COUNTER</th>
<th>USER</th>
<th>ADMIN</th>
</tr>
</thead>
<tbody>
<tr>
<td>FAX</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>TTI</td>
<td>ON</td>
<td>OFF</td>
<td></td>
</tr>
<tr>
<td>RTI</td>
<td>ON</td>
<td>OFF</td>
<td></td>
</tr>
<tr>
<td>ECM</td>
<td>ON</td>
<td>OFF</td>
<td></td>
</tr>
</tbody>
</table>

- In the “TTI” option, specify whether the TTI is enabled or disabled as default setting.
  - [ON] — Press this to print a transmission header (TTI) on received faxes to clearly identify the sender name of received faxes.
  - [OFF] — Press this not to print a transmission header (TTI) on received faxes.
- In the “RTI” option, specify whether the RTI is enabled or disabled as default setting.
  - [ON] — Press this to print a reception header (RTI) on received faxes to clearly identify the time, date, and page count of received faxes.
  - [OFF] — Press this not to print a reception header (RTI) on received faxes.
- In the “ECM” option, specify whether the ECM is enabled or disabled as default setting.
  - [ON] — Press this to enable the ECM (Error Correction Mode) to automatically re-send any portion of the document affected by phone line noise or distortion.
  - [OFF] — Press this to disable the ECM.

**Note**
- The “TTI”, “RTI”, and “ECM” options are available only when the optional Fax unit is installed.
- The “TTI” option is not displayed depending on the region.

6 Press the [ENTER] button.
- The default settings for each mode are changed as you specified.
4. SETTING SCAN FUNCTIONS

You can change the initial setting (default setting) of scan job.

**Note**

The [SCAN] button in the [USER] menu will be available only when the Scanner Kit is installed, or when the Printer/Scanner Kit is installed.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [USER] button, and then press the [SCAN] button on the touch panel.

   • The SCAN screen is displayed.

3. Specify the following items as you require.

   • In the “SINGLE/2-SIDE SCAN” option, press the desired mode button.
     - [SINGLE] — Press this to set single page scan as default scan mode.
     - [BOOK] — Press this to set book scan mode as default scan mode. This enables to scan both side of originals in the same direction.
     - [TABLET] — Press this to set tablet scan mode as default scan mode. This enables to scan front page in the general direction, and scan back page rotated 180 degree.

   • In the “ROTATION” option, press the desired mode button.
   • In the “ORIGINAL MODE” option, press the desired mode button applied for scans.
   • In the “RESOLUTION” option, press the desired mode button applied for scans.

4. Press the [Next] button to display the next screen.
5 Specify the following items as you require.

<table>
<thead>
<tr>
<th>ADDRESS</th>
<th>COUNTER</th>
<th>USER</th>
<th>ADMIN</th>
</tr>
</thead>
<tbody>
<tr>
<td>SCAN</td>
<td>EXPOSURE</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- In the “EXPOSURE” option, press light or dark buttons to specify the default exposure for scans manually, or press the [AUTO] button to select auto mode for the default exposure mode for scans.

6 Press the [ENTER] button.

- The default settings for each mode are changed as you specified.
5. PRINTING LISTS

Printing the Address Book List

You can print the address book list that shows all registered contacts and groups in this equipment.

1 Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2 Press the [USER] button, and then press the [LIST] button on the touch panel.

   • The LIST menu is displayed.

3 Press the [ADDRESS BOOK] button.

   • The ADDRESS BOOK menu is displayed.

4 Press the [ID SORT] button to print it as sorted by the ID number, or [NAME SORT] button to print it as sorted by the last name.

   • When the department management is disabled, the address book list is printed.
   • When the department management is enabled, the screen to input the department code is displayed. Enter the department code using the digital keys and press the [ENTER] button to print the address book list.
3.SETTING ITEMS (USER)

5.PRINTING LISTS (Cont.)

Tips

- The list is printed on the paper that is fed from the drawer LT-R or A4-R paper is set and exit to the inner tray.
- For an output example of the address book list, see “Address Book List”. P.174
Printing the Group Numbers List

You can print the group numbers list that shows all registered groups and members in this equipment.

1 Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2 Press the [USER] button, and then press the [LIST] button on the touch panel.

   • The LIST menu is displayed.

3 Press the [GROUP NUMBERS] button.

   • When the department management is disabled, the group numbers list is printed.
   • When the department management is enabled, the screen to input the department code is displayed. Enter the department code using the digital keys and press the [ENTER] button to print the group numbers list.

   Tips

   • The list is printed on the paper that is fed from the drawer LT-R or A4-R paper is set and exit to the inner tray.
   • For an output example of the group numbers list, see “Group Numbers List”. P.175
Printing the Function List (User)

You can print the function list that shows the function flow under the [USER] button of the User Functions.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [USER] button, and then press the [LIST] button on the touch panel.

   - The LIST menu is displayed.

3. Press the [FUNCTION] button.

   - When the department management is disabled, the function list is printed.
   - When the department management is enabled, the screen to input the department code is displayed. Enter the department code using the digital keys and press the [ENTER] button to print the function list.

**Tips**

- The list is printed on the paper that is fed from the drawer LT-R or A4-R paper is set and exit to the inner tray.
- For an output example of the function list, see “Function List (User)”. P.176
6. CHECKING E-MAIL

This function allows you to check for new E-mails (Internet Faxes) on the POP3 server.

**Note**

The [CHECK E-MAIL] button in the [USER] menu will be available only when the Scanner Kit is installed, or when the Printer/Scanner Kit is installed.

**Tip**

This equipment also automatically checks for new E-mails on the POP3 server.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [USER] button, and then press the [CHECK E-MAIL] button on the touch panel.

- This equipment starts communicating to the POP3 server.
- If new E-mail to this machine is on the POP3 server, it will be automatically printed after retrieving the E-mail data from the POP3 server.
- If new E-mail of the Offramp Gateway document is on the POP3 server, this equipment starts dialing the specified fax number to transmit the received E-mail to remote facsimile.
7. SETTING DRAWER

This function allows you to set the paper size and paper type of each drawer.

1. Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2. Press the [USER] button, and then press the [DRAWER] button on the touch panel.

3. Press the drawer portion in the illustration to highlight the drawer where you want to change the paper size and paper type, then press the desired paper size button and paper type button.

• The paper size in the selected drawer changes to the selected paper size.
8. TURN OFF THE POWER (SHUT DOWN)

When turning off the power of the equipment, perform the following shutdown procedure. DO NOT turn off the power by switching off the power switch of the equipment as it can cause the failure of the hard disk. Before turning off the power, be sure that the following 3 conditions are satisfied.

- No jobs are left in the printing job list.
- The ERROR lamp is not blinking.
- No PCs access the equipment via network.

1 Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2 Press the [USER] button, and then press the [SHUTDOWN] button on the touch panel.

3 “Processing job will be deleted. Are you sure you want to shutdown?” appears on the screen. Press the [YES] button.

- To cancel the shutdown operation, press the [NO] button.
4 “Shutdown in progress” appears on the screen, and then the equipment is shut down.

- The power switch automatically returns to the OFF position.
9. SETTING BIP PRINTING

The [BIP PRINTING] button will be available only when the optional Bluetooth Module is installed. For the instructions on how to set the BIP printing, please refer to the GN-2010 Operator’s Manual for Bluetooth.

1. ENTERING TO ADMIN MENU

When the administrator password has been set, you must enter the administrator password to enter the [ADMIN] menu in the User Functions screen.

1 Press the [USER FUNCTIONS] button on the control panel to enter the User Functions menu.

2 Press the [ADMIN] button.
   • The ADMINISTRATOR PASSWORD screen is displayed.

3 Press the [PASSWORD] button.
   • The input screen is displayed.

4 Enter the administrator password and press the [ENTER] button.
   • The ADMIN menu is displayed.

Tip

If the administrator password has not been changed before, enter the default administrator password “123456”.

Note

If you enter the incorrect password continuously, the equipment cannot be operated for a constant time.
5 The ADMIN menu is displayed. Continue the administrative operation that you require.

- P.89 “2.SETTING GENERAL FUNCTIONS”
- P.106 “3.SETTING NETWORK FUNCTIONS”
- P.136 “4.SETTING COPY FUNCTIONS”
- P.138 “5.SETTING FAX FUNCTIONS”
- P.152 “6.SETTING FILE FUNCTIONS”
- P.153 “7.SETTING E-MAIL FUNCTIONS”
- P.155 “8.SETTING INTERNET FAX FUNCTIONS”
- P.158 “9.SETTING SECURE PDF FUNCTIONS”
- P.160 “10.SETTING LIST/REPORT”
- P.167 “11.PRINTING LISTS”
- P.168 “12.SETTING PRINTER/E-FILING FUNCTIONS”

**Note**

- There is also the [WIRELESS SETTINGS] button in the ADMIN menu. This button will be available only when the optional Wireless LAN is installed. For the instructions on how to operate the WIRELESS SETTINGS, please refer to the *GN-1041 Operator’s Manual for Wireless LAN*.
- There is also the [Bluetooth SETTINGS] button in the ADMIN menu. This button will be available only when the optional Bluetooth is installed. For the instructions on how to operate the Bluetooth SETTINGS, please refer to the *GN-2010 Operator’s Manual for Bluetooth*. 
2. SETTING GENERAL FUNCTIONS

Setting the Device Information

You can set the device information of this equipment. These items appear in the Device page of TopAccess, that is the web-based device management utility.

1 Press the [GENERAL] button in the ADMIN menu.

• The GENERAL menu is displayed.

Tip

To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”. P.87

2 Press the [DEVICE INFORMATION] button.

• The DEVICE INFORMATION screen is displayed.

3 Press each button on the touch panel to enter following items.

• [LOCATION] — Press this button to enter the location where this device is located.
• [SERVICE PHONE NUMBER] — Press this button to enter the service call number.
• [CONTACT INFORMATION] — Press this button to enter the name of the service technician.
• [ADMIN. MESSAGE] — Press this button to enter the administration message for users.
When you press each button, the input screen is displayed. Enter the value using the keyboard and digital keys, and press the [ENTER] button to set the entry. To enter the [SERVICE PHONE NUMBER], enter the number using only the digital keys.

4 Press the [ENTER] button.
Setting the Notification

You can set the notification mail to send a notification message when specified events occur on this equipment such as toner empty, paper empty, serviceman call, and so on. You can specify up to 3 E-mail addresses for the destination of the notification message.

**Note**

- You can specify the events that you want to be notified using the TopAccess web utility. For instructions on how to specify the events for the notification, please refer to *TopAccess Guide*.
- To enable this function, there must be a SMTP server in your network. In addition, the settings to enable the Internet Fax transmission on this equipment must be configured correctly.

1. Press the [GENERAL] button in the ADMIN menu.

   ![General Menu](image)

   - The GENERAL menu is displayed.

2. Press the [NOTIFICATION] button.

   ![Notification Menu](image)

   - The NOTIFICATION screen is displayed.
3 Press the [E-MAIL] buttons.

- The input screen is displayed.

4 Enter the E-mail address using the keyboard and digital keys, and press the [ENTER] key to set the entry.

- You can specify up to three E-mail addresses to which the notification message will be sent, as required. When you enable the notification, you must enter at least one E-mail address.

5 After entering the E-mail addresses that you require, press the [ON] button of the E-mail address that you want to enable the notification.

- To disable the notification for an E-mail address, press the [OFF] button.

**Note**

You can select only the [ON] button of which an E-mail address is entered.

6 Press the [ENTER] button.
Changing the Administrator Password

You can change the administrator password. The administrator password must be alphanumeric characters of 6 or more and 10 or less.

1 Press the [GENERAL] button in the ADMIN menu.

![General Menu](image1)

- The GENERAL menu is displayed.

Tip

To display the ADMIN menu, see “1.Entering to ADMIN Menu”. P.87

2 Press the [PASSWORD SETUP] button.

![Password Setup Screen](image2)

- The PASSWORD SETUP screen is displayed.

3 Press the [OLD PASSWORD] button.

![Old Password Input Screen](image3)

- The input screen is displayed.
4 Enter the current administrator password and press the [ENTER] button.

- The input password appears as asterisks (*).

**Tip**

If the administrator password will be changed at the first time, enter “123456” in the “Old Password” field.

5 Same as “OLD PASSWORD”, press the [NEW PASSWORD] and [RETYPE NEW PASSWORD] buttons and enter the new password.

- You can enter alphanumeric characters of 6 or more and 10 or less for the administrator’s password. You cannot enter any symbol characters.

**Tip**

You cannot leave these fields blank to set no administrator password. You must set the administrator password.

6 Press the [ENTER] button at the bottom of the touch panel.
Setting the Date and Time

The clock built in to this equipment can be set by entering the date and time using the digital keys. Also, you can easily change the clock to and from the daylight saving system at the touch of a button.

1. Press the [GENERAL] button in the ADMIN menu.

   - The GENERAL menu is displayed.

   **Tip**

   To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”. P.87

2. Press the [CLOCK] button.

   - The CLOCK menu is displayed.

3. Press the [DATE/TIME] button.

   - If you want to change the date format only, skip to step 10.
   - When you press the [DATE/TIME] button, the DATE/TIME screen is displayed.
4. SETTING ITEMS (ADMIN)

4. Highlight the section that you want to edit using the arrow buttons, and enter the number using the digital keys.

- The “DAY” section describes the day of week with a number. The numbers corresponding to the days of week as following:
  1: Sun, 2: Mon, 3: Tue, 4: Wed, 5: Thu, 6: Fri, 7: Sat

5. To enable the daylight saving system, press the button.
   - The daylight saving button is highlighted.

6. Press the [ENTER] button.
   - Returns you to the CLOCK menu.

7. Press the [DATE FORMAT] button.
   - The DATE FORMAT screen is displayed.

8. Press the desired date format button.
Setting the Weekly Timer

Using the built-in weekly timer, you can have this equipment automatically turned ON and OFF at specified times. For instance, you can set the timer for the starting time and closing time of your office so that the copier will automatically turn itself ON and OFF at those specified times.

Tip

You can turn on the power simply pressing the [START] button on the control panel when the device is OFF-mode by the weekly timer. If you leave the device for a while after the latest operation, it will automatically return to OFF-mode again by the weekly timer.

Note

When the power switch is turned off, the weekly timer does not work.

1 Press the [GENERAL] button in the ADMIN menu.

   ![GENERAL menu](image)

   - The GENERAL menu is displayed.

Tip

To display the ADMIN menu, see "1.ENTERING TO ADMIN MENU". P.87

2 Press the [ENERGY SAVER] button.

   ![ENERGY SAVER menu](image)

   - The ENERGY SAVER menu is displayed.
3 Press the [WEEKLY TIMER] button.

• The TIMER screen is displayed.

4 Check the settings on the display, and if corrections are necessary, press the [CHANGE] button.

• If no correction is needed, press the [ENTER] button and complete the operation.

5 Press the [<Sun>] or [Sat->] buttons to switch the days of the week. Then in the “ON” field, enter the time that the device will automatically turn on the power using the digital keys and press the [SET] button to set the entry.

• If you want to clear entered time to retypie it, press the [CLEAR] button on the Control Panel.
• After pressing the [SET] button, the “OFF” field will be highlighted.
6 In the “OFF” field, enter the time that the device will automatically turn off the power using the digital keys and press the [SET] button to set the entry.

- If you want to clear entered time to retype it, press the [CLEAR] button on the Control Panel.

**Tips**

- If you want to return to the “OFF” field to retype it, press the [RESET] button.
- If you want this equipment not to be turned ON, enter the same time in both “ON” and “OFF” field.
- If you want to disable the Weekly Timer, enter “00:00” for the ON time and “24:00” for the OFF time.

7 Press the [ENTER] button at the bottom of the touch panel.
Setting the Auto Power Save Mode

This function allows this equipment automatically to go into the energy saving mode (unnecessary electricity is cut off at standby) if it is left inactive for a certain period of time.

1. Press the [GENERAL] button in the ADMIN menu.

2. Press the [ENERGY SAVER] button.

3. Press the [AUTO POWER SAVE] button.

• The GENERAL menu is displayed.

Tip
To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”. P.87

• The ENERGY SAVER menu is displayed.

• The AUTO POWER SAVE screen is displayed.
4 Press the desired period of time (in minutes) that this equipment waits before the Automatic Power Save mode is activated.

![Auto Power Save Setting]

- The Auto Power Save mode setting is completed.
Setting the Sleep/Auto Shut Off Mode

This function allows this equipment goes into the Sleep/Auto Shut Off Mode that stands by with the minimum power consumption.

1. Press the [GENERAL] button in the ADMIN menu.

   ![GENERAL menu](image)

   • The GENERAL menu is displayed.

   **Tip**

   To display the ADMIN menu, see “1.ENTERING TO ADMIN MENU”. P.87

2. Press the [ENERGY SAVER] button.

   ![ENERGY SAVER menu](image)

   • The ENERGY SAVER menu is displayed.

3. Press the [SLEEP / AUTO SHUT OFF] button.

   ![SLEEP / AUTO SHUT OFF menu](image)

   • The SLEEP / AUTO SHUT OFF screen is displayed.
4 Press the desired period of time (in minutes) that this equipment waits before the Sleep/Auto Shut Off Mode is activated.

- The Sleep/Auto Shut Off Mode setting is completed.
Setting the Drawer Setup Pop-Up and Paper Jam Recovery Pop-Up

You can set whether or not displaying the message to ask users to change the paper size setting every time you open the drawer.
You can also set whether or not displaying the message to ask users to continue the copying or printing after recovering the paper jam.

1. Press the [GENERAL] button.

   • The GENERAL menu is displayed.

   Tip

   To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”.  P.87

2. Press the [POP-UP] button.

   • The POP-UP screen is displayed.
3 Press the [ENABLE] or [DISABLE] for each option and press the [ENTER] button.

- **DRAWER SET** — When this is enabled, this equipment displays the message to ask users to change the paper size setting every time you open the drawer.
- **PAPER JAM RECOVERY** — When this is enabled, this equipment displays the message to ask users to continue copying or printing when the paper jam is recovered. When this is disabled, copying or printing will be continued automatically when the paper jam is recovered.
3. SETTING NETWORK FUNCTIONS

Setting the TCP/IP Protocol (IPv4)

You can set the TCP/IP protocol that is commonly used for most of network system. It is recommended to configure the TCP/IP protocol because TopAccess, the device management web-based utility, and e-Filing web-based utility, that allows you to manage files in the e-Filing, will be available with the TCP/IP protocol. Also other network features of this equipment use the TCP/IP protocol.

In the TCP/IP menu, you can select the addressing mode, assign the IP address, subnet mask, and default gateway (if manually assigned).

How the TCP/IP protocol is configured is depending on the network configuration of your network.

- **When you assign the TCP/IP using the Auto-IP addressing or DHCP server:**
  If you do not know how the TCP/IP settings should be assigned, you can select Dynamic addressing mode. When the Dynamic addressing mode is selected, this equipment will obtain the IP address, subnet mask, default gateway, primary WINS server address, secondary WINS server address, POP3 server address, and SMTP server address from the DHCP server if the network supports the DHCP. If the network does not support the DHCP, this equipment will assign the appropriate IP address using the Auto-IP addressing. However, the Auto-IP addressing may not work properly when the router is placed in the network.
  P.106 “Setting the TCP/IP for Auto-IP and DHCP Server”

- **When you assign the TCP/IP using the DHCP server only:**
  If your local area network has been configured with the DHCP server and you do not want to enable the Auto-IP addressing, you can select No Auto-IP addressing mode. When the No Auto-IP addressing mode is selected, the IP address, subnet mask, default gateway, primary WINS server address, secondary WINS server address, POP3 server address, and SMTP server address will be automatically obtained from the DHCP server, and the Auto-IP addressing will be disabled. To enable the DHCP addressing only, please configure the TCP/IP settings as described in following procedure.
  P.108 “Setting the TCP/IP for DHCP Server Only”

- **When you connect to local area network where the static IP addresses are used:**
  If your local area network has been configured with the static IP address, you must assign the specific IP address, subnet mask, and default gateway as required.
  P.109 “Setting the TCP/IP for Static IP Address”

Setting the TCP/IP for Auto-IP and DHCP Server

1. Press the [NETWORK] button in the ADMIN menu.

   ![NETWORK menu]

   - The NETWORK menu is displayed.

   **Tip**

   To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”. P.87
2 Press the [IPv4] button.

3 Press the [DYNAMIC] button in the “ADDRESS MODE” option.

4 Press the [ENTER] button.
   - Returns you to the NETWORK menu.

5 Continue to another network setting if required, then press the [APPLY NOW] button.
   - The "NETWORK INITIALIZING" message is displayed and this equipment starts initializing the network interface card to apply the changes.
3. SETTING NETWORK FUNCTIONS (Cont.)

Setting the TCP/IP for DHCP Server Only

1. Press the [NETWORK] button in the ADMIN menu.

   - The NETWORK menu is displayed.

   **Tip**

   To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”. P. 87

   - The TCP/IP screen is displayed.

3. Press the [NO AUTO IP] button in the “ADDRESS MODE” option.

4. Press the [ENTER] button.

   - Returns you to the NETWORK menu.
5 Continue to another network setting if required, then press the [APPLY NOW] button.

- The "NETWORK INITIALIZING" message is displayed and this equipment starts initializing the network interface card to apply the changes.

### Setting the TCP/IP for Static IP Address

1 Press the [NETWORK] button in the ADMIN menu.

- The NETWORK menu is displayed.

**Tip**

To display the ADMIN menu, see "1.ENTERING TO ADMIN MENU". P.87

2 Press the [IPv4] button.

- The TCP/IP screen is displayed.
3. Press the [STATIC] button in the “ADDRESS MODE” option.

4. Press the [IP ADDRESS] button and enter the IP address of this device using the digital keys. Enter also the subnet mask and default gateway as required.

5. Press the [ENTER] button.
   - Returns you to the NETWORK menu.

6. Continue to another network setting if required, then press the [APPLY NOW] button.
   - The “NETWORK INITIALIZING” message is displayed and this equipment starts initializing the network interface card to apply the changes.
Setting the IPv6 Protocol

You can set the IPv6 protocol on this equipment.

This IPv6 menu allows you to enable or disable the IPv6 protocol used on this equipment. In this menu, you can also set the IPv6 configuration such as the IPv6 address by selecting the address mode.

How the IPv6 address is obtained is depending on the address mode you select.

- **When you select the manual mode:**
  You assign the IPv6 address, prefix and default gateway manually. In this mode, you can assign one IPv6 address to this equipment.

- **When you select the auto mode:**
  This equipment can obtain multiple IPv6 addresses from the DHCPv6 server and routers automatically. In this mode, up to 9 IPv6 addresses can be registered on this equipment.

  **Tip**

  Up to 7 IPv6 addresses can be obtained from routers. One IPv6 address can be obtained from the DHCPv6 server. One link local address is also generated automatically.

1. **Press the [NETWORK] button in the ADMIN menu.**

   ![NETWORK Menu](image)

   - The NETWORK menu is displayed.

   **Tip**

   To display the ADMIN menu, see "1.ENTERING TO ADMIN MENU". P.87

2. **Press the [IPv6] button.**

   ![IPv6 Menu](image)

   - The IPv6 screen is displayed.
3 Specify the following items as required.

- **IPv6 PROTOCOL**—Press the [ENABLE] button to enable the IPv6 protocol, or [DISABLE] button to disable the IPv6 protocol.
- **ADDRESS MODE**—Select the IPv6 address mode option.
- **Link Local Address**—The unique address used for the IPv6 is displayed.

**Tip**
Link Local Address cannot be connected to another routed IPv6 network.

4 Press the [Next] button.
- IPv6 (Manual/Statefull Address) screen is displayed.
- When selecting “MANUAL” mode in step 3, proceed to step 5.
- When selecting “AUTO” mode in step 3, proceed to step 7.

5 Specify the following items as required.

- **DHCP (OPTIONS)**—Select whether or not the optional information (IPv6 address for the DNS server, etc.) except the IPv6 address for this equipment, which is issued from the DHCPv6 server is used on this equipment. Press the [ENABLE] button to use the information, or [DISABLE] button to not use it.
- **[IP ADDRESS]**—Assign the IPv6 address for this equipment.
- **[PREFIX]**—Assign the prefix for the IPv6 address.
- **[GATEWAY]**—Assign the default gateway.

**Tip**
In “MANUAL” mode, you cannot select “DHCP (IP Address)” option.

6 Press the [ENTER] button.
- Returns you to the NETWORK menu.
- Proceed to step 12.
7 Specify the following items as required.

- **DHCP (IP Address)**—Select whether or not the IPv6 address which is issued from the DHCPv6 server is used for this equipment. Press the [ENABLE] button to use the address, or [DISABLE] button to not use it.

- **DHCP (OPTIONS)**—Select whether or not the optional information (IPv6 address for the DNS server, etc.) except the IPv6 address for this equipment, which is issued from the DHCPv6 server is used on this equipment. Press the [ENABLE] button to use the information, or [DISABLE] button to not use it.

**Tip**

In “AUTO” mode, you cannot assign “IP ADDRESS”, “PREFIX” and “GATEWAY” manually.

8 Press the [Next] button.

- IPv6 (Auto Configuration) screen is displayed.

9 Specify the following items as required.

- **STATELESS ADDRESS**—Press the [ENABLE] button to use the IPv6 addresses issued from routers, or [DISABLE] button to not use them.

- **KEEP CONFIGURATION**—Select the method on how to handle IPv6 address data when new IPv6 address is provided from the same router providing the current IPv6 address to this equipment. Press the [ENABLE] button to retain the current IPv6 address data and add new IPv6 address to this equipment. Press the [DISABLE] button to overwrite the current IPv6 address data with new IPv6 address.

- **DHCP (IP Address)**—Press the [ENABLE] button to use the IPv6 address issued from the DHCPv6 server in the stateless network environment, or [DISABLE] button to not use it.

- **DHCP (OPTIONS)**—Press the [ENABLE] button to use the optional information (IPv6 address for the DNS server, etc.) issued from the DHCPv6 server in the stateless network environment, or [DISABLE] button to not use it.

**Tip**

Either “DHCP (IP Address)” on the IPv6 (Manual/Statefull Address) screen or “STATELESS ADDRESS” on the IPv6 (Auto Configuration) screen must be in “ENABLE” mode.
10 **Press the [Next] button.**
   - IPv6 addresses obtained from routers are displayed.

   **Tip**
   Up to 7 IPv6 addresses can be retained.

11 **Press the [ENTER] button.**

   ![Image of IPv6 address configuration]

   - Returns you to the NETWORK menu.

12 **Continue to another network setting if required, then press the [APPLY NOW] button.**

   ![Image of network settings]

   - The “NETWORK INITIALIZING” message is displayed and this equipment starts initializing the network interface card to apply the changes.
Setting the IPX/SPX Protocol

You can set the IPX/SPX protocol on this equipment. The IPX/SPX protocol is usually used to communicate with the NetWare file server through the network.

1. Press the [NETWORK] button in the ADMIN menu.

![NETWORK menu](image)

- The NETWORK menu is displayed.

**Tip**

To display the ADMIN menu, see "1. ENTERING TO ADMIN MENU". P.87

2. Press the [IPX/SPX] button.

![IPX/SPX menu](image)

- The IPX/SPX screen is displayed.

3. Specify the following items as required.

   ![IPX/SPX settings](image)

   - **ENABLE IPX/SPX** — Press the [ENABLE] button to enable the IPX/SPX protocol, or [DISABLE] button to disable the IPX/SPX protocol.
   - **FRAME TYPE** — Press the [AUTO] button to automatically detect the appropriate frame type, or press other specific frame type button. If you do not know the frame type that must be used, select the [AUTO] button.

4. Press the [ENTER] button.

   - Returns you to the NETWORK menu.
5 Continue to another network setting if required, then press the [APPLY NOW] button.

- The "NETWORK INITIALIZING" message is displayed and this equipment starts initializing the network interface card to apply the changes.
Setting the NetWare Settings

You can set the NetWare network mode and the NetWare configuration to be connected. This must be set when you use the NetWare file server for Novell printing.

1 Press the [NETWORK] button in the ADMIN menu.

- The NETWORK menu is displayed.

**Tip**

To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”. P.87

2 Press the [NETWARE] button.

- The NETWARE screen is displayed.
3 Specify following items as required.

- **ENABLE BINDERY** — Press the [ENABLE] button to enable communicating with the NetWare file server in bindery mode, or [DISABLE] button to disable the bindery mode.
- **ENABLE NDS** — Press the [ENABLE] button to enable communicating with the NetWare file server in NDS mode, or [DISABLE] button to disable the NDS mode.
- **[CONTEXT]** — Press this to enter the NDS context that the NetWare print server for this equipment is located. This must be entered when you connect the NetWare file server in NDS mode.
- **[TREE]** — Press this to enter the NDS tree. This must be entered when you connect the NetWare file server in NDS mode.
- **[SEARCH ROOT]** — Press this to enter the NetWare file server name. It is recommended to enter this when you connect the NetWare file server in bindery mode.

**Tips**

- When you press each button, the input screen is displayed. Enter the value using the keyboard and digital keys, and press the [ENTER] button to set the entry.
- You can enable both the bindery and NDS mode at the same time.

4 Press the [ENTER] button.
- Returns you to the NETWORK menu.

5 Continue to another network setting if required, then press the [APPLY NOW] button.

- The "NETWORK INITIALIZING" message is displayed and this equipment starts initializing the network interface card to apply the changes.
Setting the SMB Protocol

When you want to enable this equipment visible in the Windows network, you must enable the SMB protocol and enter the NetBIOS name and workgroup to specify the device name of this equipment and workgroup where this equipment will be visible.

Also if your network uses the WINS server to allow the SMB communication across the segments, you must specify the WINS server address, so that this equipment will be visible from the different segment.

This must be enabled for SMB printing, Save as file to the network folder using SMB, and sharing the “FILE_SHARE” folder (that is the local folder of this equipment) in the network.

1 Press the [NETWORK] button in the ADMIN menu.

- The NETWORK menu is displayed.

Tip
To display the ADMIN menu, see “1.ENTERING TO ADMIN MENU”. P.87

2 Press the [SMB] button.

- The SMB screen is displayed.
Specify following items as required and press the [ENTER] button.

<table>
<thead>
<tr>
<th>ADDRESS</th>
<th>COUNTER</th>
<th>USER</th>
<th>ADMIN</th>
</tr>
</thead>
<tbody>
<tr>

</table>

- **SMB PROTOCOL** — Select whether the SMB protocol is enabled or disabled.
  
  When you want to enable the SMB protocol to enable the Save as file to network folder using SMB and sharing the “FILE_SHARE” folder of this equipment, but not to enable the SMB printing, press the [DISABLE PRINT SHARE] button.
  
  When you want to enable the SMB protocol to enable the SMB printing, but not to enable the Save as file to network folder using SMB and sharing the “FILE_SHARE” folder of this equipment, press the [DISABLE FILE SHARE] button.
  
- **[NetBIOS NAME]** — Press this button to enter the Windows computer name of this device if this device is connected to the Windows network. This must be specified when you want to enable SMB printing.
  
- **LOGON** — This displays the Windows network logon environment. “workgroup” will be displayed if this equipment logon the workgroup network and “domain” will be displayed if this equipment logon the domain network. This can be specified only from TopAccess. For instructions on how to set the workgroup or domain, please see “Setting up the SMB Session” in “Chapter 7 TopAccess Administrator Mode” of TopAccess Guide.
  
- **[WINS PRIMARY]** — Press this button and enter the IP address of the primary WINS server using the digital keys if required.
  
- **[WINS SECONDARY]** — Press this button and enter the IP address of the secondary WINS server using the digital keys if required.

**Tip**

When you press the [NetBIOS NAME] button, the input screen is displayed. Enter the value using the keyboard and digital keys, and press the [ENTER] button to set the entry.

**Note**

- If this equipment is configured to logon the domain in the SMB Session of TopAccess administrator mode but “workgroup” is displayed, loggin on the domain network is failed. In that case, confirm that the Windows Server and the SMB Session settings are correctly set.
  
- When you set “Domain” for the Logon setting in the SMB Session of TopAccess administrator mode, this equipment will logon to the domain network after turning ON the power of equipment or changing the network settings and pressing the [APPLY NOW] button.
  
- You can enter only alphanumeric characters and "-" (hyphenation) for NetBIOS name. If you use any other characters, a warning message will be displayed.
  
- Do not enter an IP address that starts with “0” (i.e. “0.10.10.10”), “127” (i.e. “127.10.10.10”), and “224” (i.e. “224.10.10.10”). If you enter such an address, the equipment cannot communicate with the WINS server.
  
- If you enter “0.0.0.0” for [WINS PRIMARY] and [WINS SECONDARY], this equipment will not use the WINS server.
  
- When [DYNAMIC] or [NO AUTO IP] is selected for the Address Mode in the TCP/IP setting, this equipment can obtain the IP address for [WINS PRIMARY] and [WINS SECONDARY] from the DHCP server. However, if you enter the IP address for them manually here, this equipment will use the entered IP address instead of the IP address that is obtained from the DHCP server.
4 Continue to another network setting if required, then press the [APPLY NOW] button.

- The "NETWORK INITIALIZING" message is displayed and this equipment starts initializing the network interface card to apply the changes.
Setting the AppleTalk Protocol

The AppleTalk protocol must be enabled and properly configured to enable AppleTalk printing with the Macintosh computer.

1. **Press the [NETWORK] button in the ADMIN menu.**

   - The NETWORK menu is displayed.

   **Tip**
   
   To display the ADMIN menu, see “1.Entering to ADMIN MENU”. P.87

2. **Press the [APPLETALK] button.**

   - The APPLETALK screen is displayed.

3. **Specify following items as required.**

   - **ENABLE APPLETALK** — Press the [ENABLE] button to enable the AppleTalk, or [DISABLE] button to disable the AppleTalk.
   - **[DEVICE NAME]** — Press this to enter the AppleTalk name of this equipment.
   - **[DESIRED ZONE]** — Press this to enter the AppleTalk zone name this equipment joins. If your AppleTalk network has not been configured with a zone, you do not have to enter the zone name.
When you press the [APPLETALK NAME] and [DESIRED ZONE] buttons, the input screen is displayed. Enter
the value using the keyboard and digital keys, and press the [ENTER] button to set the entry.

4 Press the [ENTER] button.
• Returns you to the NETWORK menu.

5 Continue to another network setting if required, then press the [APPLY NOW] button.

• The "NETWORK INITIALIZING" message is displayed and this equipment starts initializing the network inter-
face card to apply the changes.
Setting the HTTP Network Service

This function allows you to enable or disable the HTTP network server service that provides the web-based utility on this equipment, such as TopAccess and e-Filing web utility. The HTTP network server service also must be enabled for IPP printing.

1 Press the [NETWORK] button in the ADMIN menu.

![NETWORK menu screen]

- The NETWORK menu is displayed.

**Tip**
To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”. P.87

2 Press the [HTTP] button.

![HTTP menu screen]

- The HTTP screen is displayed.
3 Specify following items as required.

- **ENABLE HTTP SERVER** — Press the [ENABLE] button to enable the HTTP network server service, or [DISABLE] button to disable the HTTP network server service. This must be enabled for TopAccess, e-Filing web utility, and IPP printing.

- **[PRIMARY PORT NUMBER]** — Press this to enter the primary port number to be used for the HTTP access from the other client. It is recommended to use the default port number “80” if you are not sure changing this port number.

- **[SECONDARY PORT NUMBER]** — Press this to enter the secondary port number to be used to access the TopAccess and e-Filing web utility. It is recommended to use the default port number “8080” if you are not sure changing this port number.

- **ENABLE SSL** — Press the [ENABLE] button to enable the SSL for accessing the administration pages in TopAccess and e-Filing web utility. It is recommended to use the default port number “8080” if you are not sure changing this port number.

To enable SSL, you must create a self-signed certificate in the equipment or import the server certificate using TopAccess. If the self-signed certificate is not created or the server certificate is not imported, the SSL cannot be enabled.

4 Press the [ENTER] button.

- Returns you to the NETWORK menu.

5 Continue to another network setting if required, then press the [APPLY NOW] button.

- The "NETWORK INITIALIZING" message is displayed and this equipment starts initializing the network interface card to apply the changes.
Setting the Ethernet Speed

This function allows you to specify the ethernet speed.

1. Press the [NETWORK] button in the ADMIN menu.

2. Press the [Next] button.

3. Press the [ETHERNET] button.

---

Tip

To display the ADMIN menu, see "1. ENTERING TO ADMIN MENU". ☞ P.87
4 Press the [AUTO] button to automatically detect the appropriate ethernet speed, or press other specific ethernet speed button.

Tips

- When you select a specific ethernet speed, you must select the same ethernet speed as set in the connected network. If you do not know the ethernet speed that must be used, select the [AUTO] button.
- If the network is not stable, power OFF the equipment then ON.

5 Press the [ENTER] button.

- Returns you to the NETWORK menu.

6 Continue to another network setting if required, then press the [APPLY NOW] button.

- The "NETWORK INITIALIZING" message is displayed and this equipment starts initializing the network interface card to apply the changes.
Setting the LDAP and SNMP Network Service

This function allows this equipment to access the LDAP directory service. This equipment can search for the contacts in the LDAP server to specify the recipients of the Internet Fax, fax transmission, and Scan to E-mail job.

Tips

• If the LDAP network service is enabled, you can register the LDAP directory service, and then this equipment can search for the contacts in the LDAP server. To add the LDAP directory service, you must operate using TopAccess. For more information about registering the directory service, please see the TopAccess Guide.

• When the LDAP network service is disabled, it is not possible to obtain the user’s e-mail address as “From Address” from the LDAP server during the User Authentication for Scan to Email.

1 Press the [NETWORK] button in the ADMIN menu.

![NETWORK menu]

• The NETWORK menu is displayed.

Tip

To display the ADMIN menu, see “1.ENTERING TO ADMIN MENU”. P.87

2 Press the [Next] button.

![NEXT button]

• The NEXT button is highlighted.
3 Press the [OTHER] button.

![Screen shot of the OTHER screen](image1.png)

- The OTHER screen is displayed.

4 Press the [ENABLE] button to enable the LDAP network service, or [DISABLE] button to disable it.

![Screen shot of the LDAP service configuration](image2.png)

- Optionally you can enter the trap community name for the SNMP Traps by pressing the [SNMP READ COMMUNITY] button. When you press this button, the QWERTY Type Keyboard screen is displayed. Enter the value using the keyboard and digital keys, and press the [ENTER] button to set the entry.

5 Press the [ENTER] button.

- Returns you to the NETWORK menu.

6 Continue to another network setting if required, then press the [APPLY NOW] button.

![Screen shot of the APPLY NOW button](image3.png)

- The "NETWORK INITIALIZING" message is displayed and this equipment starts initializing the network interface card to apply the changes.
Setting the User Certificate

When you import the server certificate using TopAccess to enable SSL for the HTTP Network Service, FTP Server, and IPP Print Service, you must enter the password for the server certificate using this function.

**Tip**

This function must be performed after importing the server certificate using TopAccess. For more information about importing the server certificate, please see the *TopAccess Guide*.

1. **Press the [NETWORK] button in the ADMIN menu.**

   - The NETWORK menu is displayed.

   **Tip**

   To display the ADMIN menu, see "1.ENTERING TO ADMIN MENU". P.87

2. **Press the [Next] button.**

3. **Press the [USER CERTIFICATE] button.**

   - The USER CERTIFICATE screen is displayed.
4 Press the [USER CERTIFICATE] button.

- The input screen is displayed.

5 Enter the server certificate file name using the keyboard and digital keys, and press the [ENTER] key to set the entry.

6 Press the [PASSWORD] button.

- The input screen is displayed.
7 Enter the password for the server certificate using the keyboard and digital keys, and press the [ENTER] key to set the entry.

- The input password appears as asterisks (*).

8 Press the [ENTER] button.

- Returns you to the ADMIN menu and the "NETWORK INITIALIZING" message is displayed. This equipment starts initializing the network interface card to apply the changes.
Ping/Traceroute

You can use the ping function to check the connection status between this equipment and the servers on network. You can also use the traceroute function to view and check the network path of the desired server.

1 Press the [NETWORK] button in the ADMIN menu.

2 Press the [Next] button.

3 Press the [PING/TRACEROUTE] button.

To display the ADMIN menu, see "1. ENTERING TO ADMIN MENU". P.87
4 Select the server you want to check and press the [PING] or [TRACEROUTE] button.

- Check result is displayed.

When the ping function is performed, the check result “IP address 128 (TTL: Time to live) fixed OK/NG” is displayed.

When the traceroute function is performed, the check result “IP address 1 to 128 (TTL: Time to live) OK/NG” is displayed.

**Note**

When the ping/traceroute command can reach a server, IP address is displayed for the check result for the server. If the command cannot reach it for some reason, host name is displayed instead of IP address.
There are 2 ways to select the server you want to check.

To select the desired server from the server list displayed on the touch panel:
Checkable servers and supported protocols are as follows.
- Primary DNS server (IPv4/IPv6)
- Secondary DNS server (IPv4/IPv6)
- Primary WINS server (IPv4)
- Secondary WINS server (IPv4)
- SMTP server (IPv4/IPv6)
- POP3 server (IPv4/IPv6)
- Primary SNTP server (IPv4/IPv6)
- Secondary SNTP server (IPv4/IPv6)
- LDAP server 1
- LDAP server 2
- LDAP server 3
- LDAP server 4
- LDAP server 5
- Remote server 1
- Remote server 2

To designate desired server manually:
Enter the server name or IPv4 address, IPv6 address manually.
When you press the Manual Input column, the input screen is displayed. Enter the value using the keyboard and digital keys, and press the [ENTER] button to set the entry.

5 Press the [RETURN] button.
- Returns you to the NETWORK menu.
4. SETTING COPY FUNCTIONS

You can change the system behaviors for the copy operation, such as maximum number of copies, auto 2-sided mode, and the sort mode priority.

1 Press the [COPY] button in the ADMIN menu.

![ADMIN Menu]

- The COPY screen is displayed.

**Tip**
To display the ADMIN menu, see “1.ENTERING TO ADMIN MENU”. P.87

2 Specify following items as required.

- **MAXIMUM COPIES** — Press the number button that indicates the maximum number of copies to be allowed.
- **AUTO 2-SIDE MODE** — Press the button of the 2-Sided mode that initially applies to copy settings when originals are set in the Automatic Document Feeder. When the [OFF] button is selected, the initial setting of the 2-Sided mode will be [1 -> 1 SIMPLEX] when originals are set in the Automatic Document Feeder. When the [1->2] button is selected, the initial setting of the 2-Sided mode will be [1 -> 2 DUPLEX] when originals are set in the Automatic Document Feeder. When the [2->2] button is selected, the initial setting of the 2-Sided mode will be [2 -> 2 DUPLEX] when originals are set in the Automatic Document Feeder. When the [USER] button is selected, the screen to select the 2-Sided mode will be displayed when originals are set in the Automatic Document Feeder.
- **SORT MODE PRIORITY** — Press the sort mode that applies prior for copy jobs. If the [STAPLE] button is selected, the output is stapled on the upper left corner as the default. To select the [STAPLE] button, the optional finisher must be installed.

3 Press the [Next] button to display the next screen.
4 Specify following items as required.

- AUTOMATIC CHANGE OF PAPER SOURCE — When this is set to [ON], this equipment will print on the different size of paper when the specified paper size is not set. When this is set to [OFF], this equipment will display a message to set the correct paper.

- PAPER OF DIFFERENT DIRECTION — When this is set to [ON], this equipment will rotate the image and print on the different direction of paper if the correct direction of paper is not set. When this is set to [OFF], this equipment will display a message to set the correct paper.

- SUSPEND PRINTING IF STAPLER EMPTY — When this is set to [ON], this equipment quit the job with stapling when the stapler empty occurs. When this is set to [OFF], this equipment will continue the job without stapling.

5 Press the [ENTER] button.

- Returns you to the ADMIN menu.
5. SETTING FAX FUNCTIONS

Setting the Terminal ID

Note
The Terminal ID settings are available only when the optional Fax unit is installed.

Once programmed, Terminal ID information will be printed on the leading edge of transmitted or received documents if the TTI and RIT are enabled.

Tips
• ID information is sent and printed about 5 mm from the top edge of the original.
• In compliance with FCC regulations, your company’s name, facsimile telephone number and date & time are added at the top of all transmitted documents. This feature enables remote parties to easily identify your documents and the time of transmission.

1 Press the [FAX] button in the ADMIN menu.

• The FAX menu is displayed.

Tip
To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”. P.87

2 Press the [TERMINAL ID] button.

• The TERMINAL ID screen is displayed.
3 Specify following items as required.

- **[ID NAME]** — Press this to enter the terminal ID of this equipment.
- **[FAX NUMBER]** — Press this to enter the fax number of this equipment.
- **[LINE2 NUMBER]** — Press this to enter the 2 line fax number of this equipment if the Line2 board is installed. This is not displayed when the Line2 board is not installed.
- When you press the [ID NAME] button, the input screen is displayed. Enter the name using the keyboard and digital keys, and press the [ENTER] button to set the entry.

When you press the [FAX NUMBER] or [LINE2 NUMBER] button, the message to ask you whether adding the international code is displayed. Press the [YES] button if you want to add the international code, or the [NO] button if you do not want to add the international code.

When you press the [YES] button, the input screen that “+” is entered is displayed. When you press the [NO] button, the input screen without any entry is displayed.

Enter the phone number using the digital keys, and press the [ENTER] button to set the entry.
4 Press the [ENTER] button.

• Returns you to the FAX menu.
Setting the Fax Initial Setup

The [INITIAL SETUP] button in the [ADMIN] menu will be available only when the optional Fax unit is installed.

Set the initial settings for the fax functions such as the volume settings and reception mode.

- Reception mode: AUTO, MANUAL
- Monitor tone volume: Adjustable 0-7 steps (0: tone OFF)
  The “monitor tone” is the line monitor tone which is heard when the [MONITOR/PAUSE] button is pressed.
- Completion tone volume: Adjustable 0-7 stages (0: tone OFF)
  The “completion tone” is the ringer tone which is heard when original printing has been completed. It can be heard when all originals have been printed out.
- Dial type (Line 1/Line 2): DP, MF (not available for the European version)
  There are two types of telephone lines: Dial pulse lines (DP) and multi frequency lines (MF). Change the telephone line setting to match the type of the line you are using, for example, when you first install the system or when you change the connected telephone line.

1 Press the [FAX] button in the ADMIN menu.

- The FAX menu is displayed.

To display the ADMIN menu, see “1.ENTERING TO ADMIN MENU”. P.87

2 Press the [INITIAL SETUP] button.

- The INITIAL SETUP screen is displayed.
3 Specify following items as required.

- **RX MODE** — Press the [AUTO] button to receive faxes automatically, or [MANUAL] button to receive faxes manually. When you select the manual mode, you can receive the faxes by pressing the [START] button when it rings.
- **MONITOR VOLUME** — Press the arrow buttons to change the monitor volume.
- **COMPLETION TONE VOLUME** — Press the arrow buttons to change the complete volume.

**Note**
When the User Management Setting is enabled, only the [AUTO] button can be selected for the RX MODE option.

4 Press the [Next] button to display the next screen.

5 Specify following items as required.

- **DIAL TYPE** — Press the [MF] button to select the Multi-frequency mode, or [DP] button to select the Dial Pulse mode for the line 1.
- **DIAL TYPE (LINE2)** — Press the [MF] button to select the Multi-frequency mode, or [DP] button to select the Dial Pulse mode for the line 2. This is available only when the optional 2nd line board is installed.

**Note**
The “DIAL TYPE” and “DIAL TYPE (LINE2)” is not available for the European version.

6 Press the [ENTER] button.
- Returns you to the FAX menu.
Setting the Line-2 Mode

Note

The Line-2 Mode settings are available only when the optional Fax unit and optional Line-2 board are installed.

Installing the 2nd line board (option) allows transmission during reception, reception during transmission, and simultaneous two communications of transmission/reception.

When the 2nd line is used, the following function setting and registration are required.
- Entering terminal ID P.138
- Dial type setting P.141
- Line-2 setting (following instruction)
- The 1st line takes precedence in the initial setting (not including the case that LINE 2 is selected in the LINE SELECT when you register remote fax numbers into the address). If you want the 2nd line to have priority in the initial setting, ask your service technician.

When the optional 2nd line board is installed, its operation can be selected from the following:
- Transmission/Reception
  Both transmission and reception are available all the time.
- Reception only (24 hours)
  The 2nd line is always standing by for reception.
- Reception only (timer)
  Only reception is available during the specified period of time.
* Even during reception only, the specified line performs transmission if any line has been specified by the options or address menu.

Entering Line-2 Mode Setting

1. Press the [FAX] button in the ADMIN menu.

   ![FAX menu](image)

   - The FAX menu is displayed.

Tip

To display the ADMIN menu, see "1.ENTERING TO ADMIN MENU". P.87
2 Press the [LINE-2 MODE] button.

- The LINE-2 MODE screen is displayed.

3 Continue the procedure depending on how you set the Line-2 mode.

- P.144 "Transmission and Reception (TX/RX)"
- P.144 "Reception Only (24HR)"
- P.145 "Reception Only (TIMER)"

Transmission and Reception (TX/RX)

1 Press the [TX/RX] button.

2 Press the [ENTER] button.

Reception Only (24HR)

1 Press the [RX ONLY (24HR)] button.

- Making the 2nd line standby for the reception all the time.
2 Press the [ENTER] button.

Reception Only (TIMER)

1 Press the [RX ONLY (TIMER)] button.

- Using the 2nd line for reception only during the specified period.
- Enter the START time and END time using the digital keys.
- Pressing the arrow buttons moves the cursor.
- Time is displayed in the 24-hour system.

2 Press the [ENTER] button.
Setting the RX Printing

Setting Discard and Reduction Printing

Set print settings for received fax and Internet Fax originals that are to be printed.
Two print settings are available: discard printing and reduction printing.

Discard Printing: ON, OFF
- ON (default setting): When originals are up to 10mm larger than the printing area; the part of the originals that exceeds the paper printing area is discarded.
- OFF: The received original is printed on two sheets of paper if its length exceeds the paper printing area.
* For detail of DISCARD setting, contact your service technician.

RX Reduction Printing: ON, OFF
- ON (default setting): If the received original is longer than the recording paper, it will be vertically reduced to 90% to fit on the recording paper.
- OFF: The received original is printed on two sheets of paper if its length exceeds the paper printing area.
* Only drawers can be set for received FAX printing. Please see the Operator's Manual for Basic Functions. Be sure to use LD, LG, LT, LT-R, A3, A4, A4-R or B4.

1. Press the [FAX] button in the ADMIN menu.

2. Press the [RX PRINT] button.

* The FAX menu is displayed.

Tip
To display the ADMIN menu, see "1.ENTERING TO ADMIN MENU". P.87
3 Press the [ON] (or [OFF]) button of the “DISCARD” and/or “REDUCTION”.

4 Press the [ENTER] button.
   • The registered items can be confirmed in the function list.  P.167

Setting Duplex Printing

Note
The “Duplex Print” function is available only when the optional Fax unit is installed.

This printer setting determines whether or not to print received originals on both sides of sheet.
* Duplex printing is available only if the received originals are the same size.
* When the system runs out of paper during duplex printing, the rest of the documents is printed on both sides of another size of paper.

1 Press the [FAX] button in the ADMIN menu.

   • The FAX menu is displayed.

Tip
To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”.  P.87
2 Press the [RX PRINT] button.

3 Press the [ON] button of the “DUPLEX PRINT”, and then press the [ENTER] button.

- The registered items can be confirmed in the function list. P.167

Tip

Duplex printing direction differs depending on the received original size.
- Received LD, LG, LT, A3, A4, or B4-sized originals are printed so that they can be bound along the long edge of direction.
- Received ST, A5 or B5-sized originals are printed so that they can be bound along the short edge of direction.

Setting the Rotate Sort

Note

The “Rotate Sort” function is available only when the optional Fax unit is installed.

The printer setting determines whether or not to output each separate job of received originals in the different orientation.
* Rotate Sort printing is available only for LT/A4-sized paper. Set the LT and LT-R, or A4 and A4-R drawers.
* When the system runs out of paper during Rotate Sort printing, the rest of the documents is printed on the remaining paper.

1 Press the [FAX] button in the ADMIN menu.

![FAX menu](image_url)

• The FAX menu is displayed.

**Tip**

To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”. P.87

2 Press the [RX PRINT] button.

![RX PRINT menu](image_url)

3 Press the [ON] button of the “ROTATE SORT”, and then press the [ENTER] button.

![Function list](image_url)

• The registered items can be confirmed in the function list. P.167
Setting the Recovery Transmission

**Note**
The Recovery transmission is available only when the optional Fax unit is installed.

This function allows you to specify how long a document will be remained in the memory after failing the redial attempts.

**Note**
You can retransmit the document held in the memory. For instructions on how to send the recovery transmission, see the *Operator’s Manual For Facsimile Function*.

1. Press the [FAX] button in the ADMIN menu.

   ![FAX menu](image)

   • The FAX menu is displayed.

   **Tip**
   To display the ADMIN menu, see "1.ENTERING TO ADMIN MENU". P.87

2. Press the [RECOVERY TX] button.

   ![RECOVERY TX button](image)
3 Change the document-stored time with the [< 1H] or [24H >] button, and press the [ENTER] button.

• The document-holding time can be changed by the 1 hour.

**Note**

When the Recovery transmission is enabled, the [RECOVERY TX] button will be grayed icon. You can disable the Recovery transmission by pressing the [RECOVERY TX] button again, and the button turns to the normal icon.
This function allows you to automatically delete the files stored by the Scan to File operations. This function is used to periodically delete stored files in the local storage to maintain the available hard disk space.

**Note**
The [FILE] button in the [ADMIN] menu will be available only when the Scanner Kit is installed, or when the Printer/Scanner Kit is installed.

### 6. SETTING FILE FUNCTIONS

1. **Press the [FILE] button in the ADMIN menu.**

   ![ADMIN menu](image)

   - The MAINTENANCE menu is displayed.

2. **Press the [ON] button to enable the storage maintenance, or [OFF] button to disable the storage maintenance.**

   ![Storage maintenance](image)

   - When you press the [ON] button, the “Storage Maintenance” field will be highlighted. Continue to next step to enter the number of days.
   - When you press the [OFF] button, skip to step 4.

3. **Enter the number of days the system preserve the files before deleting them automatically using the digital keys.**

   - You can enter 1 to 99 days. To correct the value, press the [CLEAR] button to delete the input value and enter the number of days.

4. **Press the [ENTER] button.**
7. SETTING E-MAIL FUNCTIONS

Setting the Scan to E-mail Message Properties

You can configure the message properties of E-mail documents that will be sent by Scan to E-mail operation.

Note

The [E-MAIL] button in the [ADMIN] menu will be available only when the Scanner Kit is installed, or when the Printer/Scanner Kit is installed.

1 Press the [E-MAIL] button.

- The E-MAIL screen is displayed.

Tip

To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”. P.87

2 Press each button to enter the E-mail properties.

- [FROM ADDRESS] — Press this to enter the E-mail address of this equipment.
- [FROM NAME] — Press this to enter the identification name of this equipment.
- [BODY] — Press this to enter the body message.

Note

You must enter the [FROM ADDRESS] button to enable Scan to E-mail.

Tip

When you press each button, the input screen is displayed. Enter the value using the keyboard and digital keys, and press the [ENTER] button to set the entry.

3 Press the [ENTER] button.
Setting the Scan to E-mail Fragmentation

This function allows you to send the Scan to E-mail job split by the fragment size you specified. This can reduce the transmission errors caused by the network traffic problems.

**Note**

The [E-MAIL] button in the [ADMIN] menu will be available only when the Scanner Kit is installed, or when the Printer/Scanner Kit is installed.

1. Press the [E-MAIL] button in the ADMIN menu.

   - The E-MAIL screen is displayed.

   **Tip**

   To display the ADMIN menu, see “1.ENTERING TO ADMIN MENU”. P.87

2. Press desired fragment size button and press the [ENTER] button.

   - Press the [NONE] button to disable the fragmentation.
8. SETTING INTERNET FAX FUNCTIONS

Setting the Internet Fax Message Properties

You can configure the message properties of Internet Faxes that will be sent by Internet Fax transmission.

Note

The [INTERNET FAX] button in the [ADMIN] menu will be available only when the Scanner Kit is installed, or when the Printer/Scanner Kit is installed.

1 Press the [INTERNET FAX] button in the ADMIN menu.

<table>
<thead>
<tr>
<th>ADDRESS</th>
<th>COUNTER</th>
<th>USER</th>
<th>ADMIN</th>
</tr>
</thead>
<tbody>
<tr>
<td>GENERAL</td>
<td>NETWORK</td>
<td>COPY</td>
<td>FAIX</td>
</tr>
<tr>
<td>FILE</td>
<td>E-MAIL</td>
<td>INTRODUCTION</td>
<td></td>
</tr>
</tbody>
</table>

- The INTERNET FAX screen is displayed.

Tip

To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”. P.87

2 Press each button to enter the Internet Fax properties.

<table>
<thead>
<tr>
<th>ADDRESS</th>
<th>COUNTER</th>
<th>USER</th>
<th>ADMIN</th>
</tr>
</thead>
<tbody>
<tr>
<td>INTERNET FAX</td>
<td>FROM ADDRESS</td>
<td>FROM NAME</td>
<td>BODY</td>
</tr>
</tbody>
</table>

- [FROM ADDRESS] — Press this to enter the E-mail address of this equipment.
- [FROM NAME] — Press this to enter the identification name of this equipment.
- [BODY] — Press this to enter the body message.

Note

You must enter the [FROM ADDRESS] button to enable Internet Fax.

Tip

When you press each button, the input screen is displayed. Enter the value using the keyboard and digital keys, and press the [ENTER] button to set the entry.

3 Press the [ENTER] button.
Setting the Internet Fax Fragmentation

This function allows you to send the Internet Faxes split by the fragment size you specified. This can reduce the transmission errors caused by the network traffic problems.

**Note**

The [INTERNET FAX] button in the [ADMIN] menu will be available only when the Scanner Kit is installed, or when the Printer/Scanner Kit is installed.

1. Press the [INTERNET FAX] button in the ADMIN menu.

   • The INTERNET FAX screen is displayed.

   **Tip**

   To display the ADMIN menu, see “1.ENTERING TO ADMIN MENU”. P.87

2. Press desired fragment size button and press the [ENTER] button.

   • Press the [NONE] button to disable the fragmentation.
Setting the Internet Fax Body String Transmission

This function allows you to set whether the body string will be transmitted or not.

Note

The [INTERNET FAX] button in the [ADMIN] menu will be available only when the Scanner Kit is installed, or when the Printer/Scanner Kit is installed.

1 Press the [INTERNET FAX] button in the ADMIN menu.

![ INTERNET FAX screen display ]

• The INTERNET FAX screen is displayed.

Tip

To display the ADMIN menu, see “1.ENTERING TO ADMIN MENU”. P.87

2 Press the [ENABLE] button to enable the body string transmission, or [DISABLE] button to disable the body string transmission.

![ INTERNET FAX settings menu ]

3 Press the [ENTER] button.
9. SETTING SECURE PDF FUNCTIONS

You can configure the default values for the encryption setting which are applied when data scanned on this equipment is generated as a secure PDF file.

**Tip**
This setting is applied to the operations for “Scan to File” and “Scan to E-mail”.

1. Press the [Secure PDF] button in the ADMIN menu.

   ![ADMIN Menu Screen](image1)

   - The PDF SECURITY SETTINGS screen is displayed.

   **Tip**
To display the ADMIN menu, see “1.ENTERING TO ADMIN MENU”. P.87

2. Specify the following items as required.

   ![PDF Security Settings Screen](image2)

   - **[USER PASSWORD]**—Enter a password required to open a secure PDF file. “12345” is set as the default user password.
   - **USE AUTHENTICATION CODE AS PASSWORD**—Press the [ENABLE] button to use a user authentication code for “USER PASSWORD” or [DISABLE] button to use a password entered in “USER PASSWORD” field.
   - **[MASTER PASSWORD]**—Enter a password required to change the security setting of a secure PDF file. “123456” is set as the default master password.
   - **Encryption Level**—Select the encryption level for a secure PDF file.
     - **128bit RC4**—The encryption level compatible for Acrobat5.0, PDF V1.4 is set.
     - **40bit RC4**—The encryption level compatible for Acrobat3.0, PDF V1.1 is set.
   - **Authority**—Select the authority for a secure PDF file.
     - **PRINT**—Printing is allowed.
     - **CHANGE**—Changing the Document is allowed.
     - **EXTRACT**—Content Copying or Extraction is allowed.
     - **ACCESSIBILITY**—Content Extraction for Accessibility is allowed.
When you press the [USER PASSWORD] or [MASTER PASSWORD] button, the input screen is displayed. Enter the value using the keyboard and digital keys, and press the [ENTER] button to set the entry.

**Tip**

When you press the [USER PASSWORD] or [MASTER PASSWORD] button, the input screen is displayed. Enter the value using the keyboard and digital keys, and press the [ENTER] button to set the entry.

**Note**

- Different passwords must be set to “USER PASSWORD” and “MASTER PASSWORD”.
- You can enter alphanumeric characters of 1 or more and 32 or less for “USER PASSWORD” and “MASTER PASSWORD”. The input password appears as asterisks (*).
- When the lock icon next to “USER PASSWORD” display field is highlighted, a user cannot change the password.
- When the lock icon next to “MASTER PASSWORD” display field is highlighted, a user cannot change the encryption level and authority.

3 Press the [ENTER] button.
Setting the Transmission / Reception Journal

There are two types of journals available on this equipment. Journals can be printed either automatically or manually. This function allows you to set the auto-print for the journals, and the number of transactions appears in the journal list.

**Note**

The Transmission/Reception Journal settings will be available only when the Printer Kit and Scanner Kit is installed, when the Printer/Scanner Kit is installed, or when the optional Fax unit is installed.

1. Press the [LIST/REPORT] button in the ADMIN menu.

   ![List/Report Screen]

   - The LIST/REPORT screen is displayed.

2. Press the [REPORT SETTING] button.

   ![Report Setting Menu]

   - The REPORT SETTING menu is displayed.

**Tip**

To display the ADMIN menu, see “1. ENTERING TO ADMIN MENU”. P.87
3 Press the [JOURNAL] button.

- The JOURNAL screen is displayed.

4 Specify the following items as required.

- **AUTO** — Press the [ON] button to enable printing the transmission and reception journals automatically. When you enable this, the transmission and reception journals will be printed when specified numbers of transmissions are completed.

- **TX JOURNAL** — Press the number button to specify the number of transmissions will be printed on a transmission journal.

- **RX JOURNAL** — Press the number button to specify the number of receptions will be printed on a reception journal.

5 Press the [ENTER] button.
Setting the Communication Report

Communication Report allows you to print a report after every transmission. Reports can be printed automatically only. This function allows you to select the condition to print the communication report for each transmission type separately.

**Note**

The Communication Report setting will be available only when the Printer Kit and Scanner Kit is installed, when the Printer/Scanner Kit is installed, or when the optional Fax unit is installed.

1. Press the [LIST/REPORT] button in the ADMIN menu.

   ![List/Report Screen]

   • The LIST/REPORT screen is displayed.

   **Tip**

   To display the ADMIN menu, see "1.ENTERING TO ADMIN MENU".  P.87

2. Press the [REPORT SETTING] button.

   ![Report Setting Screen]

   • The REPORT SETTING screen is displayed.
3 Press the [COMM. REPORT] button.

- The COMM. REPORT screen is displayed.

4 Specify the condition for each transmission type.

- [OFF] — Press this to disable printing the communication report.
- [ALWAYS] — Press this to print the communication report every transmission.
- [ON ERROR] — Press this to print the communication report only when an error occurs.

**Note**

“DIRECT TX” and “POLLING” are available only when the optional Fax unit is installed.

5 When you press the [ALWAYS] or [ON ERROR] button for “MEMORY TX” or “MULTI TX”, the “PRINT 1st PAGE IMAGE?” message is displayed. Press the [YES] button to print the communication report with the first page image, or press the [NO] button to print the communication report without the page image.

- Returns you to the COMM. REPORT screen.
6 Press the [Next] button to display the next screen and specify the condition for each transmission type.

![Image of interface with settings for relay originator, relay station, and relay destination]

**Note**

"RELAY ORIGINATOR", "RELAY STATION", and "RELAY DESTINATION" are available only when the optional Fax unit is installed.

7 When you press the [ALWAYS] or [ON ERROR] button for each transmission type, the “PRINT 1st PAGE IMAGE?” message is displayed. Press the [YES] button to print the communication report with the first page image, or press the [NO] button to print the communication report without the page image.

![Image of interface with options for printing first page image]

- Returns you to the COMM. REPORT screen.

8 Press the [ENTER] button.
Setting the Reception List

The Reception List allows you to print a reception list after receiving a document to a mailbox on this equipment.

This function allows you to enable or disable printing a reception list for the following mailbox transmissions:
- **Relay Station** — Receiving a relay transmission from an originator as a relay hub.
- **Local** — Reserving a document to a mailbox within this equipment locally.
- **Remote** — Reserving a document to a mailbox within this equipment remotely from another facsimile.

1. Press the [LIST/REPORT] button in the ADMIN menu.

   ![ADMIN menu with LIST/REPORT button highlighted]

   - The LIST/REPORT screen is displayed.

   **Tip**

   To display the ADMIN menu, see “1.ENTERING TO ADMIN MENU”. P.87

2. Press the [REPORT SETTING] button.

   ![REPORT SETTING menu]

   - The REPORT SETTING screen is displayed.

3. Press the [RECEPTION LIST] button.

   ![RECEPTION LIST menu]

   - The RECEPTION LIST screen is displayed.
4 Specify whether the reception list will be printed for each transmission.

<table>
<thead>
<tr>
<th>ADDRESS</th>
<th>COUNTER</th>

</tbody>
</table>

- **RELAY STATION** — Select the [ON] button to print the reception list when receiving a relay transmission from an originator.
- **LOCAL** — Select the [ON] button to print the reception list when reserving a document to a mailbox within the machine locally.
- **REMOTE** — Select the [ON] button to print the reception list when receiving a document to a mailbox within the machine remotely from another facsimile.

5 Press the [ENTER] button.
11. PRINTING LISTS

This function allows you to print the NIC configuration page, function list, PS3 font list, and PCL font list.

* For the examples of each list format are described in Appendix. [P.171]

1. Press the [LIST/REPORT] button in the ADMIN menu.

- The LIST screen is displayed.

   Tip

To display the ADMIN menu, see "1. ENTERING TO ADMIN MENU". [P.87]

2. Press the [LIST] button.

- The LIST screen is displayed.

3. Press the button that you want to print.

- Selected list is printed.
12. SETTING PRINTER/E-FILING FUNCTIONS

You can configure the printer and e-Filing functions that will apply to the print jobs or e-Filing jobs.

1. Press the [PRINTER/E-FILING] button in the ADMIN menu.

   • The PRINTER/E-FILING screen is displayed.

   Tip

   To display the ADMIN menu, see “1.ENTERING TO ADMIN MENU”. P.87

2. Specify the following items as you require.

   • AUTOMATIC CHANGE OF PAPER SOURCE — When the [ON] button is selected, this equipment will feed the same size of paper from the different drawer if the specified drawer becomes empty.
   • PAPER OF DIFFERENT DIRECTION — When the [ON] button is selected, this equipment will feed the same size of paper that is set in a different direction if the specified drawer becomes empty.
   • SUSPEND PRINTING IF STAPLER EMPTY — Select the [ON] button to enable suspending printing if stapler empty occurs. When this is enabled, this equipment quit printing that stapling is specified if stapler empty occurs. When this is disabled, this equipment will print a document without stapling even if stapler empty occurs.

3. Press the [ENTER] button.
• There is also the [WIRELESS SETTINGS] button in the ADMIN menu. This button will be available only when the optional Wireless LAN Module is installed. For the instructions on how to operate the WIRELESS SETTINGS, please refer to the GN-1041 Operator’s Manual for Wireless LAN.

• There is also the [Bluetooth SETTINGS] button in the ADMIN menu. This button will be available only when the optional Bluetooth Module is installed. For the instructions on how to operate the Bluetooth SETTINGS, please refer to the GN-2010 Operator’s Manual for Bluetooth.

### NETWORK SETTING - NETWORK SERVICE - SMTP SERVER NETWORK SERVICE

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>E-MAIL ADDRESS</td>
<td>Shows the E-mail address of this equipment if the SMTP server is enabled and it has been set.</td>
<td>NO</td>
</tr>
</tbody>
</table>

### NETWORK SETTING - NETWORK SERVICE - POP3 NETWORK SERVICE

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENABLE POP3 CLIENT</td>
<td>Shows whether the POP3 client is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>POP3 SERVER ADDRESS</td>
<td>Shows the IP address of the POP3 server if it has been assigned.</td>
<td>NO</td>
</tr>
<tr>
<td>AUTHENTICATION</td>
<td>Shows whether POP3 authentication is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>TYPE POP3 LOGIN</td>
<td>Shows the POP3 login type.</td>
<td>NO</td>
</tr>
<tr>
<td>ACCOUNT NAME</td>
<td>Shows the POP3 account name if it has been set.</td>
<td>NO</td>
</tr>
<tr>
<td>SCAN RATE</td>
<td>Shows the scan rate to check the POP3 server for new message (in minutes).</td>
<td>NO</td>
</tr>
<tr>
<td>PORT NUMBER</td>
<td>Shows the port number to be used for accessing the POP3 server.</td>
<td>NO</td>
</tr>
<tr>
<td>ENABLE SSL</td>
<td>Shows whether the SSL for the POP3 network service is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>SSL PORT NUMBER</td>
<td>Shows the SSL port number to be used for accessing the POP3 server.</td>
<td>NO</td>
</tr>
</tbody>
</table>

### NETWORK SETTING - NETWORK SERVICE - FTP CLIENT NETWORK SERVICE

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>DEFAULT PORT NUMBER</td>
<td>Shows the default port number to be used for saving a document to the network folder using the FTP.</td>
<td>NO</td>
</tr>
</tbody>
</table>

### NETWORK SETTING - NETWORK SERVICE - FTP SERVER NETWORK SERVICE

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENABLE FTP SERVER</td>
<td>Shows whether the FTP server service is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>DEFAULT PORT NUMBER</td>
<td>Shows the default port number to be used for receiving data using FTP.</td>
<td>NO</td>
</tr>
<tr>
<td>ENABLE SSL</td>
<td>Shows whether the SSL for the FTP server network service is enabled or disabled.</td>
<td>NO</td>
</tr>
</tbody>
</table>
## NETWORK SETTING - NETWORK SERVICE - FTP SERVER NETWORK SERVICE

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>SSL PORT NUMBER</td>
<td>Shows the SSL port number to be used for accessing the equipment using FTP.</td>
<td>NO</td>
</tr>
</tbody>
</table>

## NETWORK SETTING - NETWORK SERVICE - SNMP NETWORK SERVICE

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENABLE SNMP</td>
<td>Shows whether the SNMP is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>READ COMMUNITY</td>
<td>Shows the read community name.</td>
<td>NO</td>
</tr>
<tr>
<td>ENABLE AUTHENTICATION TRAP</td>
<td>Shows whether the authentication trap is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>ENABLE ALERTS TRAP</td>
<td>Shows whether the alerts trap is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>IP TRAP ADDRESS1</td>
<td>Shows the IP address that have been set for IP trap address 1.</td>
<td>NO</td>
</tr>
<tr>
<td>IP TRAP COMMUNITY</td>
<td>Shows the IP Trap community name.</td>
<td>NO</td>
</tr>
<tr>
<td>IPX TRAP ADDRESS</td>
<td>Shows the IPX trap address.</td>
<td>NO</td>
</tr>
</tbody>
</table>

## NETWORK SETTING - NETWORK SERVICE - SNTP NETWORK SERVICE

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENABLE SNTP</td>
<td>Shows whether the SNTP is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>PRIMARY SNTP ADDRESS</td>
<td>Shows the primary SNTP server address if it has been set.</td>
<td>NO</td>
</tr>
<tr>
<td>SECONDARY SNTP ADDRESS</td>
<td>Shows the secondary SNTP server address if it has been set.</td>
<td>NO</td>
</tr>
<tr>
<td>PORT NUMBER</td>
<td>Shows the port number to be used for accessing the SNTP server.</td>
<td>NO</td>
</tr>
<tr>
<td>SCAN RATE</td>
<td>Shows the scan rate to check the SNTP server for adjusting the time setting.</td>
<td>NO</td>
</tr>
</tbody>
</table>

## NETWORK SETTING - NETWORK SERVICE - DPWS SERVICE

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>FRIENDLY NAME</td>
<td>Shows the display name of this equipment.</td>
<td>NO</td>
</tr>
<tr>
<td>PRINT ENABLE</td>
<td>Shows whether the DPWS print is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>PRINTER NAME</td>
<td>Shows the printer name of this equipment.</td>
<td>NO</td>
</tr>
</tbody>
</table>
### NETWORK SETTING - NETWORK SERVICE - DPWS SERVICE

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRINTER INFORMATION</td>
<td>Shows the printer information of this equipment.</td>
<td>NO</td>
</tr>
<tr>
<td>SCAN ENABLE</td>
<td>Shows whether the DPWS scan is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>SCANNER NAME</td>
<td>Shows the scanner name of this equipment.</td>
<td>NO</td>
</tr>
<tr>
<td>SCANNER INFORMATION</td>
<td>Shows the scanner information of this equipment.</td>
<td>NO</td>
</tr>
<tr>
<td>SECURITY</td>
<td>Shows whether the DPWS security is enabled or disabled.</td>
<td>NO</td>
</tr>
</tbody>
</table>

### NETWORK SETTING - PRINT SERVICE SETTING - RAW TCP PRINT

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENABLE RAW TCP</td>
<td>Shows whether Raw TCP printing is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>PORT NUMBER</td>
<td>Shows the port number to be used for Raw TCP printing.</td>
<td>NO</td>
</tr>
</tbody>
</table>

### NETWORK SETTING - PRINT SERVICE SETTING - LPD PRINT

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENABLE LPD</td>
<td>Shows whether LPR printing is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>PORT NUMBER</td>
<td>Shows the port number to be used for LPR printing.</td>
<td>NO</td>
</tr>
<tr>
<td>BANNERS</td>
<td>Shows whether the banner will be printed for each LPR print job.</td>
<td>NO</td>
</tr>
</tbody>
</table>

### NETWORK SETTING - PRINT SERVICE SETTING - IPP PRINT

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENABLE IPP</td>
<td>Shows whether IPP printing is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>ENABLE PORT80</td>
<td>Shows whether the Port80 is used for IPP printing.</td>
<td>NO</td>
</tr>
<tr>
<td>PORT NUMBER</td>
<td>Shows the port number to be used for IPP printing.</td>
<td>NO</td>
</tr>
<tr>
<td>URL</td>
<td>Shows the URL for IPP printing.</td>
<td>NO</td>
</tr>
<tr>
<td>ADMINISTRATOR’S NAME</td>
<td>Shows the administrator’s user name to be allowed to perform the [Cancel All Documents] function.</td>
<td>NO</td>
</tr>
</tbody>
</table>
### NETWORK SETTING - PRINT SERVICE SETTING - IPP PRINT

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>AUTHENTICATION</td>
<td>Shows whether the authentication for IPP printing is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>USER NAME</td>
<td>Shows the user name for authentication.</td>
<td>NO</td>
</tr>
<tr>
<td>ENABLE SSL</td>
<td>Shows whether the SSL for IPP printing is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>SSL PORT NUMBER</td>
<td>Shows the SSL port number to be used for IPP printing.</td>
<td>NO</td>
</tr>
<tr>
<td>SSL URL</td>
<td>Shows the SSL URL for IPP printing.</td>
<td>NO</td>
</tr>
</tbody>
</table>

### NETWORK SETTING - PRINT SERVICE SETTING - FTP PRINT

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENABLE FTP PRINT</td>
<td>Shows whether FTP printing is enabled or disabled.</td>
<td>NO</td>
</tr>
<tr>
<td>PRINT USER NAME</td>
<td>Shows the user name for FTP printing.</td>
<td>NO</td>
</tr>
<tr>
<td>PRINT PASSWORD</td>
<td>Shows the password for FTP printing.</td>
<td>NO</td>
</tr>
<tr>
<td>PORT NUMBER</td>
<td>Shows the port number to be used for FTP printing.</td>
<td>NO</td>
</tr>
</tbody>
</table>

### NETWORK SETTING - PRINT SERVICE SETTING - NETWARE PRINT

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>LOGIN NAME</td>
<td>Shows the login name for NetWare file server.</td>
<td>NO</td>
</tr>
<tr>
<td>PASSWORD</td>
<td>Shows the password for NetWare file server.</td>
<td>NO</td>
</tr>
<tr>
<td>PRINT QUEUE SCAN RATE</td>
<td>Shows how often the equipment scans the queue on NetWare file server (in second).</td>
<td>NO</td>
</tr>
</tbody>
</table>

### NETWORK SETTINGS - PRINT AND NOTIFICATION SERVICE - E-MAIL PRINT

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>User</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENABLE PRINT HEADER</td>
<td>Shows whether the header will be printed or not for E-mail printing.</td>
<td>NO</td>
</tr>
<tr>
<td>ENABLE PRINT MESSAGE BODY</td>
<td>Shows whether the message body will be printed or not for E-mail printing.</td>
<td>NO</td>
</tr>
<tr>
<td>MAXIMUM E-MAIL BODY PRINT</td>
<td>Shows the maximum number of pages to print the body strings of the received Email print job.</td>
<td>NO</td>
</tr>
<tr>
<td>ENABLE PRINT E-MAIL ERROR</td>
<td>Shows whether an E-mail error report will be printed or not.</td>
<td>NO</td>
</tr>
<tr>
<td>Function</td>
<td>Description</td>
<td>User</td>
</tr>
<tr>
<td>----------------------------------</td>
<td>-----------------------------------------------------------------------------</td>
<td>------</td>
</tr>
<tr>
<td>ENABLE E-MAIL ERROR FORWARD</td>
<td>Shows whether an E-mail error message will be sent or not.</td>
<td>NO</td>
</tr>
<tr>
<td>E-MAIL ERROR TRANSFER ADDRESS</td>
<td>Shows the E-mail address where an E-mail error message will be sent, if it has been set.</td>
<td>NO</td>
</tr>
<tr>
<td>ENABLE PARTIAL E-MAIL</td>
<td>Shows whether the equipment allows printing an E-mail job that partially received.</td>
<td>NO</td>
</tr>
<tr>
<td>PARTIAL WAIT TIME</td>
<td>Shows how long the equipment will wait for receiving data of a partial E-mail job before printing (in second).</td>
<td>NO</td>
</tr>
<tr>
<td>MDN REPLY</td>
<td>Shows whether MDN Reply is enabled or disabled.</td>
<td>NO</td>
</tr>
</tbody>
</table>
