

Complete control over print, copy, scan and fax

PaperCut MF is an easy to use, low cost software application that lets you control and manage your printers, copiers and multi-function devices.

What can PaperCut bring to your organization?

PaperCut is developed by a technically focused team who understand the ongoing print management needs of commercial organizations, these include:

Track usage of MFD's / Printers

Using embedded software PaperCut MF ensures only valid and authenticated users may use the device. Once authenticated, the same software allows you to track & control all activity, including copies, faxes, scans and printing.

Reporting

PaperCut is packed full with over 80 prebuilt reports as well as 'ad-hoc' reporting. All reports can be sent or scheduled to be emailed to key staff members automatically.

Recover costs & eliminate waste

PaperCut can be tailored to your organization by implementing management strategies such as filters, restrictions and job redirection.

Secure print release

Sensitive documents? PaperCut has many ways of ensuring that your confidential documents are protected. You can use the PaperCut embedded application to ensure no one else picks up the job at the copier, or release your job at any printer with your smart phone using the Mobile Print Release application.

Benefits of PaperCut

Control costs with management reports or bill departments for print, copy, scan and fax
