CONNECT. INTEGRATE. SIMPLIFY.

Technology for every office, delivering advanced functionality, ease of use and peace of mind. Every industry has unique workflow needs. Toshiba has developed customizable MFPs to make your job easier. Intuitive and smartly integrated, our products simplify complex tasks and give you control while providing the reliability Toshiba is known for.

Toshiba’s latest series delivers on our promise of Together Information – our commitment to collaborate with clients in order to provide tailored, cost-effective solutions that meet your print, document management and content needs while helping you meet your green objectives.

- 20 and 25 PPM
- Affordable, high-resolution color
- High-volume black & white
- Advanced e-BRIDGE Next technology
- Fast dual-core processor

Color commands attention. Technology makes it possible. It’s important that an MFP is powerful, reliable, and efficient. Add color to that and you have even more ways to make your documents impactful.

- Up to 600 dpi x 1,200 dpi
- Toshiba e-BRIDGE Color Profile Tool allows for the creation of profiles to adjust color for varying media types, lighting or even to match Pantone colors, unique spot colors or output from another device
- 256 gradations provide ultra smooth transitions in photos and illustrations
- Auto-calibration ensures consistency of color across small and large print jobs

Simple, smart and stylish. A new 9” tablet-style touch screen with an embedded web browser is easy to use and customizable to meet your needs. And, it is part of the bold new look being introduced across the e-STUDIO series.
COMPACT SIZE, ALL-NEW LOOK, AND A POWERFUL PUNCH.

For small and medium businesses and workgroups that demand color along with a small footprint, Toshiba has answered the call. The e-STUDIO2500AC series is packed with industry-leading technology and innovations designed to help workgroups connect, integrate and simplify.

Print Around eliminates printing bottlenecks by allowing other print jobs to go around one job that’s held-up due to requiring a specific paper size or type or, in some cases, even colored toner.

Limitless Job Reservation will queue up multiple copy or print jobs so users can send jobs whenever.

Saddle/Fold Capabilities offer saddle-stitch finishing and the option to fold without stapling.

Heavy Paper Support handles 16 lb bond to 90 lb index through drawers and LCF and up to 110 lb index in bypass.

Heavy Duplex Support can also handle 16 lb bond to 90 lb index for heavy duty duplexing.

Scan-to and Print-from USB lets you print straight from your USB drive or scan documents to it.

Notifications Feature takes the hassle out of checking for depleted supplies or maintenance needs.

Paper Volume Indicators on the front panel make it easy to see the paper sizes, types and levels in each cassette.

Context-Sensitive Help Button provides instant, thorough explanations straight from the manual to help as needed.

Service Module Design significantly reduces the cost and time spent servicing the MFP.

Multi-Station Print Enabler allows you to retrieve your print job from a series of networked MFPs via simple authentication.
CONVENIENCE AND SECURITY.

Small workgroups looking for quality color will appreciate the fact that the e-STUDIO2500AC series is easily integrated, customizable and solutions ready, with an open platform.

Convenient e-filing lets users store jobs that are frequently printed and access finishing features.

Toshiba’s exclusive e-BRIDGE Print & Capture application enables mobile device users to take advantage of the broad feature set when they’re in the office and on the go.

A universal driver along with PCL 6, PS3, and XPS support provide fast and easy connectivity to Windows®, Macintosh® and more.

The universal print driver works for all users. Tandem print comes standard, and you can choose from a variety of time-saving, function-adding plug-ins that enable productivity from the driver. For instance:

- **Job Point**—quickly split up large jobs with up to 10 Toshiba MFPs
- **Job Replicator**—use multi-part form replacement (3 prints)
- **Job Separator**—perform batch printing easily using any Windows app
- **Job Build**—conveniently print different document types all together

**Industry-Leading Security**
Along with all of the new and innovative Toshiba technologies, we keep the security of your business top of mind.

- A 320GB Self-Encrypting Drive (SED) with Automatic Drive Invalidation (ADI) & Data Overwrite capability provides top level security
- FIPS 140-2 Validated SED meets and exceeds government requirements
- IPsec is available to securely encrypt data sent to and from the MFP

**World-Leading Environmental Standards**
Innovation that is truly innovative makes certain that our environment is part of the equation, which is precisely what we do here at Toshiba.

- RoHS compliance, the use of recycled plastics, and Low-Power (0.6W) Super Sleep Mode work to help the environment
- EPEAT Gold Registered in the global registry for greener electronics, designed to help purchasers choose products that reduce environmental impact
- Energy Star V2.0 meets the latest, more stringent requirements

We work out of the box to find innovative ways to make your business run more efficiently. In fact, we’ve found quite a few.

Touch and Swipe with Ease
An easy to see, tablet style 9” color touch screen panel works intuitively, helping you find instructions, functions, and commands with the swipe of the finger.

Multi-Station Print Enabler
Toshiba's internally developed Multi-Station Print Enabler allows users to send print jobs from their desktop and retrieve them at any convenient MFP by simply swiping their badge and authenticating at that device.

Envelopes—the Perfect Fit
A special envelope cassette is available to hold up to 60 envelopes, making sure each one is fed and printed in the same place, every time.

Volumes and Volumes
A high monthly copy volume up to 84,000 pages. Toner yields are 33,600 CMY and 38,400 K pages (at 5%) respectively.

Advanced e-BRIDGE Next Technology
Built on Linux®, this latest e-BRIDGE Next architecture features an Embedded Web Browser, a fast dual-core processor, 4GB RAM and a 320GB FIPS 140-2 Validated SED enabling the MFP to easily drive Toshiba’s internally developed solutions or even third-party applications.

A Clever Inside Pocket
We’ve put the Authentication Card Reader inside the machine for a cleaner look and safer use.
