**SELF-SERVICE KIOSKS**

**LOW COST OF OWNERSHIP**
A Toshiba self-service kiosk provides a low cost of ownership throughout its lifecycle.

- Increased traffic & sales - through enhanced interactive customer experience
- Additional revenue streams - tailored promotions for up- and cross-selling with potential to sell advertising space
- Improve workload efficiency - personnel can be redeployed to enhance business efficiencies
- Reliable & stable platform - reduced service costs
- One kiosk platform can support multiple applications
- Maximise your business potential - customers can serve themselves quickly and easily

**GREEN CREDENTIALS**
Toshiba is committed to the design and manufacture of products that reduce environmental impact, creating environmental quality standards for each product and prescribing them with the highest levels required by the industry. All Toshiba products are RoHS compliant.

Excite and attract customers with Toshiba self-service solutions

THE FUTURE IS TOSHIBA
Toshiba self-service kiosks hail a new era of interactive customer solutions which facilitate true efficiency in today’s highly competitive and dynamic business environment. With up-to-the-minute information, slick multimedia presentations, integral printing and optional POS functionality, Toshiba kiosks are the smart retail asset for the digital age.

For essential piece of mind, Toshiba offers a complete turnkey service, from consultation and implementation through to after-sales support.

BUSINESS BENEFITS
Self-service kiosks provide companies with invaluable data and resources to enable effective business management and growth.

- Display detailed product information - ideally suited to the widest range of retail environments
- Analyse customer data for business strategies - for store planning, loyalty programmes, cross-selling and up-selling
- Queue-busting in peak periods - mobile and portable kiosk solutions can improve customer service for both retail and hospitality

CUSTOMER CONVENIENCE
Customers enjoy a more individual, empowering and satisfying experience using intuitive self-serving kiosks.

- Customer experience improved through interactive technology
- Multi-language support

Some specific examples:

- As an information kiosk, customers find the information they want when they need it
- With self-service kiosk solutions, customers order at their own convenience

APPLICATIONS
Some examples of kiosk applications:

- Information point - recipes; meal planner; price checker; product locator; digital signage
- Self-service - product selector; food counter pre-ordering; car rental; gaming; betting & entertainment
- Payment & service - financial service quotes; queue-busting; loyalty card management; vouchers; staff administration
- Office functions - training; surveys; receptionist services; job search; on-demand printing (when linked to a multi-functional printer)

SMART AND STYLISH
As part of a product consultation and business analysis with Toshiba, kiosks can be tailored to blend with and complement existing store designs and company branding. Touchscreens can be an impressive 42” and specifications are truly flexible with the addition of optional peripheral items integrated into the design of each unit.

Kiosk designs can be fully customisable to the needs of the customer (size, dimensions and design).

CUSTOMER CONVENIENCE

1. Payment with POS system*
2. Mobile applications with tablet devices*
3. Ticketing & thermal printing*
4. Face recognition with webcam*
5. MFP High quality print-on-demand*
