## **e-STUDIO™ 6529A/7529A/9029A**

Introducing a new generation of Toshiba MFPs – with high-performance, zero-trust security and cloud-ready features, these printers are the perfect choice for today's modern work environments.

- High-Speed – Up to 65, 75 & 90 PPM
- High-Volume
- Advanced Security Features
- Solutions Ready
- Environmentally Friendly

## Cloud-ready and secure for today's digital workplace.

Today's new hybrid work environment demands that information be available and accessible from anywhere at any time for organizations to be efficient and productive. Yet it needs to be secure. Introducing Toshiba's newest e-STUDIO™ departmental MFP, specifically designed to meet this need. Providing the ultimate in productivity through speed, quality and consistency, this printer also delivers a zero-trust approach for the highest level of security and cloud-ready features built-in for anywhere accessibility.

## At Toshiba, productivity is a priority.

Our new color MFP is faster and more productive, secure, and reliable than any other departmental model Toshiba has ever produced. With everything from a super-charged document feeder with Double Feed Detection to greater maximum paper capacity to next-level finishing performance, this new model raises the bar on what an MFP can do for productivity in the modern workplace.

**65, 75 & 90 PPM** to serve the needs of busy departmental environments.

**New High-Speed, High-Capacity Dual Scan Document Feeder (DSDF) with Double Feed Detection (DFD)** for the most mission-critical scanning environments, providing up to 240 IPM duplex scan speeds.

**High-Resolution** for crisp image quality: up to 1,200 dpi x 1,200 dpi.

**Accurate Color & e-BRIDGE® Color Profiler Tool V4.1** allows demanding color print users to accurately hit the widest array of recognized Pantone® colors or unique brand identity colors or match other output devices too.

**65-Sheet Stapling** takes finishing to the next level and is available on both the regular and saddle stitch finisher, the latter capable of producing booklets up to 60-pages.

**Integral Tandem LCF** allows users to address their volume demands with up to an 8,020-sheet maximum paper capacity or up to six separate paper sources by adding a 2,500-sheet letter-size external LCF and even a unique 2,000-sheet piggyback LCF to that for the most volume-intensive environments.

**10.1" Tablet-Style Full Color Tilting Touch Screen Panel** offers touch swipe User Interface (UI) featuring newly designed icons that provide access to the MFP's core functions and productivity-enhancing workflow solutions – all while offering a consistent and familiar user experience to the entire Office Collection.

**Built-in OCR (Optical Character Recognition)** allows you to quickly and easily scan paper documents to create searchable PDFs or editable document formats, such as Microsoft® Word®.

**Voice Guidance Technology** affirms your programming selections and is a great option for users with visual disabilities through Section 508 of the Rehabilitation Act, opening it up to a wider audience.

**Soft Closing Drawers** provide a luxurious feeling and better end user experience.

**Environmentally Friendly** is the Toshiba way: RoHS compliant, recycled plastics, Low-Power (1W) Super Sleep Mode, and our EcoSmart Recycling Program – as well as lower TEC values for more energy efficiency, earning them the newest EPA ENERGY STAR® 3.1 rating.

**Higher Duty Cycles and Periodic Maintenance Intervals** provide greater volume with fewer routine service calls so you can stay focused on productivity.

## Security is job number one.

**secureMFP**

Security has never been a more critical consideration for any device in today's business landscape. MFPs have the extra burden of being shared by all users, and many if not all written documents pass through this device while being printed, scanned, faxed, or copied. That's why Toshiba strongly believes in zero-trust security principles while designing the applications and cloud services for MFPs. Instead of assuming that the applications and services running on MFPs behind the corporate firewall are safe, we ensure that access and communication is fully authenticated, authorized, and encrypted. We accomplish this by enhancing security using the following features:

**Trusted Platform Module 2.0** features the latest version of hardware-based security that safeguards all data on the MFP using cryptographic keys.

**Built-in Antimalware** that's stronger than antivirus protects the MFP from Trojan horses, ransomware, spyware, rogue software, and more.

**OAUTH2 Token-based Identity Management** helps integrate cloud services with your existing identity management, therefore credentials are not replicated, and the chance of vulnerabilities is reduced.

**Enhanced Data Encryption with TLS 1.3** keeps the communication between MFP and other applications fully secure thanks to the latest and most secure version of transport layer security.

**New 128GB SSD** provides the latest encryption and improved reliability.

**512GB SSD** option provides additional onboard document storage capacity.

**FIPS 140-2 Validated SED** option enables these MFPs to meet the Hardcopy Device Protection Profile (HCD-PP) when the MFP is configured in High Security Mode.

**e-STUDIO™ 6529A/7529A/9029A**

## Harness the power of the cloud.

With **Elevate Sky®** from Toshiba, you'll find cloud-based print solutions for the modern workforce, allowing workflows to seamlessly integrate your MFPs and documents with the cloud applications you're already using.

**e-BRIDGE® Global Print** allows you to fully embrace cloud technology. It simplifies and secures your print environment while providing the flexibility for users to print from anywhere – work, home office, or on the road.

**Elevate Sky® services** from Toshiba is a suite of cloud-based applications designed to better manage print and document environments by improving device uptime and visibility to fleet usage and performance.

Leveraging big data analytics and artificial intelligence, Elevate Sky® services can identify impending errors before they happen. In many cases, remote intervention can address the issue before affecting regular device operations.

**Elevate Sky® MFPConnect** is an innovative and exclusive, cloud-based app that's ideal for remote fleet management, application and license deployment, and policy-based security management for your fleet.

**Elevate Sky® Remote Assist** enables technicians, with the end-user's approval, to remotely access the MFP and perform diagnostics and adjustments potentially eliminating the need for what might otherwise be an onsite service call.

**Elevate Sky® Predict** assists technicians by applying predictive analytics to anticipate an MFP's service needs thus improving uptime.

**Elevate Sky® AI** uses machine learning models to predict parts failures within a Toshiba fleet, helping reduce service costs by optimizing technician dispatch.

**Elevate Sky® Manage** allows IT administrators to remotely monitor fleet status, deploy licenses and applications to devices, and ensure that all Toshiba MFPs on the network have consistent and compliant security settings and policies.

**Elevate Sky® Reports** monitors MFP usage patterns, generates, and schedules custom reports for their entire fleet to gain valuable insights into how MFPs are being utilized.

Toshiba's cloud-ready MFPs and our team of experts provide the solutions your business needs to improve workflows and print smarter. Utilizing the latest technological advancements and security standards, we provide end-to-end solutions to help you seamlessly and securely navigate today's digital workplace from consulting, cloud migration, fleet management, implementation and technical support.

# The ultimate in productivity.

## e-STUDIO™ 6529A/7529A/9029A

- 1 Dual Scan Document Feeder** with Double Feed Detection – Scans up to 240 IPM; holds up to 300 originals (refillable)
- 2 10.1" Tilttable Front Panel** makes programming jobs easier than ever – even for wheelchair users – and is Section 508 friendly
- 3 Card Reader Pocket** provides increased security and enables controlled access to MFP
- 4 65-Sheet Stapling Finishers** and an output capacity of up to 3,000 pages enable bigger jobs
- 5 Saddle Stitch Finishing** enables up to 60-page booklets, and unique avalanche tray increases exit capacity
- 6 Soft Closing Drawers** automatically pull drawer closed when initiated and provide a luxury experience
- 7 Integral Tandem LCF** gives base unit 3,520 sheet supply while refillable design allows users to add paper while MFP is in use
- 8 2,500-Sheet External LCF** boosts paper capacity to 6,020 sheets
- 9 Unique Piggyback LCF** raises capacity to an amazing 8,020 sheets for the most demanding environments
