Take the Complexity Out of Information Capture

We are in the era of Data Chaos and businesses today are dealing with an exponential growth of data. An inability to harness this critical data and transform it into information leads to complexity and lost opportunity across your business.

The question isn't if you should make this digital transformation – it's where to begin.

The answer is simple: digital transformation starts with information capture – the challenge Kodak Alaris solves better than anyone.

Introducing our solutions — designed to take the complexity out of information capture, now and for the future.

The Kodak Alaris approach to information capture gives you the:

Right Fit: Solutions to fit your business goals, environment, and budget

Right Experience: Solutions that simplify your work – from acquisition through operation and ownership

Right Results: Solutions that deliver superior business value through fast, accurate, reliable information capture

Harness Your Data Chaos With Our Range of Award-Winning Scanners

From small offices to global enterprises, scanners from Kodak Alaris offer the best technology and services so our customers can stay ahead of the curve. With a broad range of award-winning scanners, we're here to help you transform your data into a powerful competitive advantage.

FADGI-compliant Scanner Bundles

FADGI, or Federal Agencies Digital Guidelines Initiative, is a “collaborative effort started in 2007 by federal agencies to articulate common sustainable practices and guidelines for digitized and born digital historical, archival and cultural content.”

Text-based documents submitted to NARA, United States National Archives and Records Administration, for archiving must be 3-star compliant by June 30, 2024.

Kodak i5250, and **i5850** FADGI-compliant bundles include:

- TAA-compliant scanner
- KODAK AQIST (Archival Quality Image Scanning Tool) Software
- One-year on-site, same business day service agreement with 4 Periodic Maintenance Services
- Professional installation/configuration/calibration service
- Purchase includes a printed Digital Imaging Conformance Evaluation (DICE) target, needed for ongoing calibration

FADGI Service Bundles

The **Kodak S2085f**, **S3000**, and **S3000 Max Series** scanners now feature standard FADGI compliance. To further enhance customer satisfaction and ensure optimal performance, Kodak Alaris provides comprehensive FADGI service bundles.

These bundles include:

- DICE (Digital Imaging Conformance Evaluation) Target
- On-site installation
- Training
- On-site next-business-day service with 2 Preventative Maintenance examinations included per year

Turning Data Chaos into Business Opportunity

Our software offers intelligent capabilities that can capture, convert, analyze, and deliver your data directly to a business process.

Kodak Capture Pro Software

A great choice for both centralized and distributed high-performance scanning environments:

- Flexible and powerful batch capture, perfect for BPOs and centralized mailrooms
- Deliver to databases and applications, including Enterprise Content Management (ECM) systems and Microsoft SharePoint Online (Office 365)
- Dedicated workstation-based software ensures security and reliability – no reliance on internet connectivity for scanning and processing
- Enhance productivity with advanced indexing capabilities and cut data-entry time by 50%
- Available as a 1-year subscription in addition to existing perpetual licensing options*

*Not available as a service on Auto Import Edition

Kodak Info Input Solution

A web-based and mobile capture application that is easy for workers to implement and use. Ideal for scanning across departments and enterprises with advanced remote capture capabilities.

- Enables easy information capture from scanning, smart devices and digital files (including email) from one application
- Maintains security and capture of business critical information via an app on a mobile device
- Perform classifications without barcodes and extraction (OCR/ICR/OMR) from within your current applications
- Connects to Enterprise Content Management, Enterprise Resource Planning, Business Process Management, and workflow solutions
- Available as a 1-year subscription in addition to existing perpetual licensing options

Smart Touch Technology

Eliminate complicated multi-step scanning processes with one-touch simplicity. Configure up to 20* different functions to fit your specific scanning needs and quickly perform common scanning tasks. Smart Touch is available via free web download for most of our scanners.

- Custom configuration that can be changed as business needs grow
- Flexible file creation options (such as PDF, sPDF, Microsoft Word, TIFF, JPEG, BMP)
- Automatically send the file to desired location (network folder, email, cloud service and more)
- Results in consistent file naming and delivery for ease of doing business

* Available on S2000 Series, S3000 Series, and S2085f. All other models with Smart Touch allow for up to nine pre-configured job set-ups.

Form a Winning Partnership with Services from Kodak Alaris

Our team's comprehensive knowledge of products and solutions, combined with a keen understanding of your organization, helps you harness the power of big data to make your capture workflow more productive and information management more impactful.

- Expert repair and maintenance services to optimize uptime and productivity
- Highly responsive, world-class field engineers and remote support experts who know your equipment
- Flexible service plan choices, value-added professional and managed services, and much more

Repair And Maintenance Services

With a focus on our customer's productivity, Kodak Alaris Repair and Maintenance service plans are tailored to maximize their investment for many years to come. Our unique ability to serve our customers around the world with responsiveness, technical accuracy, and professionalism is unmatched in the industry.

Software Services

Kodak Alaris offers comprehensive maintenance and support ensuring you get the most out of your software investment.

Professional Services

From evaluations to implementation solutions, Kodak Alaris offers a wide range of professional services to help you operate at peak efficiency.

Managed Content Services

At Kodak Alaris, our goal is to understand the customers' business needs and requirements and deliver a sustainable data capture and information management solution. Our approach establishes the foundation for ongoing visibility and management of the capture infrastructure. In addition, it enables continuous improvement of the capture environment with solutions from Kodak Alaris.
