

Labeling just got smarter.

Introducing Toshiba's Encompass® LabelSmart Program.

Managing thermal label printing shouldn't be a full-time job. With Encompass® LabelSmart—an all-inclusive cost per label program for thermal barcode printers—Toshiba brings the power of our award-winning Managed Print as a Service (MPaaS) program to your thermal label operations, so you can stop worrying about consumables and stay focused on your business.

Streamline. Simplify. Save.
That's the Toshiba Advantage.

Smarter labeling starts here.

Encompass® LabelSmart simplifies thermal printing by bundling hardware, consumables, service, and support into one predictable monthly cost—no surprises, no stress.

Whether you're printing shipping labels, compliance tags, or wristbands, Encompass® LabelSmart keeps your devices running and your operations moving.

Why choose Encompass® LabelSmart?

One Predictable Price Per Label

All-inclusive rate covers labels, ribbons, printheads, and service—no hidden fees or surprise invoices.

We Cover What Others Don't

Printhead replacements are included, helping you avoid one of the highest-cost maintenance items.

Consumables Managed for You

We track usage and handle replenishment automatically. No more emergency orders or excess inventory.

Simplified Billing & Reporting

Gain visibility with consolidated invoicing and reporting across departments and locations.

A Seamless Extension of Toshiba MPaaS

Encompass® LabelSmart integrates effortlessly with your existing program—expanded, pay-as-you-go coverage with no new contracts.

Is Encompass® LabelSmart right for you?

If thermal printers play a critical role in your operations, our innovative program helps you:

-  Eliminate unexpected costs
-  Maintain budget predictability
-  Lighten the load on IT and operations
-  Avoid carrying costs for inventory
-  Improve device uptime

Encompass® LabelSmart keeps it simple.
