

Making a greener world. One used cartridge at a time.

Toshiba's EcoSmart Toner Recycling Program is part of our commitment to the environment and to our customers. Toshiba customers can recycle Toshiba spent imaging supplies and turn a growing problem into an innovative solution.

Toshiba's EcoSmart Toner Recycling Program

- An easy-to-use recycling program for Toshiba clients
- Enables 100% recycling of imaging consumables
- All cartridges are recycled with zero waste going to landfills
- Order your receptacle, which arrives with a prepaid shipping label for returns
- Once the receptacle arrives, simply place your used consumables inside and mail it back when full (approximately 12–13 cartridges)

Going green has never been easier.

With our collection program, you can recycle Toshiba toner cartridges, drum units, and toner bags—helping eliminate the environmental impact these materials typically create.

Turn empty Toshiba toner cartridges into a new park bench

If all the used cartridges discarded each year in the U.S. were placed end to end, they would circle the earth three times. Used Toshiba imaging consumables are collected and transformed into new, useful products—with zero waste sent to landfills and zero incineration.

Our revolutionary eLumber, made from 100% recycled plastic, helps save trees while preventing landfill buildup—materials that would otherwise take up to 450 years to decompose. Because eLumber is UV-resistant, waterproof, and insect-resistant, it is ideal for fences, landscaping applications, and outdoor furniture.

Pitch in

As part of this environmentally focused program, you can turn your Toshiba imaging product waste into something productive, including the recycling of toner cartridges, toner bags, drum units, and more.

- 1. We provide the recyclable collection boxes**
- 2. You place your used materials inside**
- 3. When the box is full, it is picked up**

It's an easy way to support sustainability while demonstrating your company's commitment to the environment. Instead of allowing difficult-to-process materials—such as mixed plastics, toner powder, ink, and sponges—to contribute to growing waste issues, we can work together to be part of an effective solution.

At Toshiba, we recognize that while it's important to be environmentally responsible within our own operations, we can make an even greater impact by helping our customers do the same.
