Simple, smart and stylish.

A new 9” tablet-style touch screen with an embedded web browser is easy to use and customizable to meet your needs. And, it is part of the bold new look being introduced across the e-STUDIO series.
A COMPACT DESIGN THAT LEAVES NOTHING OUT.

Workgroups can now get a lot more done using fewer resources and less space. That’s the thinking behind the e-STUDIO3508A/4508A/5008A too. Plenty of functions, lots of capacity, and a small footprint with a fresh, new look.

Limitless Job Reservation will queue up multiple copy or print jobs so users can send jobs whenever.

Saddle/Fold Capabilities offer saddle-stitch finishing and the ability to fold without stapling.

Scan-to and Print-from USB lets you print straight from your USB drive or scan documents to it.

Advanced e-BRIDGE Next Technology enables the MFP to drive Toshiba’s internally developed solutions or those from a third party with ease.

Notifications Feature takes the hassle out of checking for depleted supplies or maintenance needs.

Paper Volume Indicators on the front panel make it easy to see the paper sizes, types and levels in each cassette.

Context-Sensitive Help Button provides instant, thorough explanations straight from the manual to help as needed.

Service Module Design significantly reduces the cost and time spent servicing the MFP.
At Toshiba, we work hard to make your work easier, and more productive. In fact, we haven’t even mentioned all of our impressive features, like PCL 6, PS3, XPS support and universal drivers that offer connectivity to Windows® Macintosh® and more. Then there are driver plug-ins such as Job Point that splits large jobs over multiple machines, Job Replicator for multipart form replacement, Job Separator for batch printing with any Windows app, and Job Build to print different documents together as a single job.
