Outperforming the competition.

You can’t stop progress. In fact, Toshiba is dedicated to finding better ways to hurry it along. Take, for instance, our new e-STUDIO206L/256/306 Series for workgroups. We’ve managed to raise the bar with this series. It’s proof that progress sometimes comes in small packages.

**Packing a powerful punch**
It used to be that large companies utilized large multifunction products and smaller businesses used smaller devices with fewer functions. However, in the past few years, Toshiba has helped change all of that. A prime example is the new e-STUDIO 206L/256/306 Series. We’ve managed to include a lot of features that are typically reserved for larger MFPs – like impressive warm up and first copy out times, color scanning, and print speeds of up to 30 pages per minute. There’s also walk up printing, simply by plugging in a USB flash drive, and you can fill a paper tray on the fly, without halting operation. Even bigger features include a full 9” LCD Touch Screen with large, easy-to-read control buttons and an optional total paper capacity of up to 3,200 sheets.

**And there’s more**
In-house document production is bigger and better than ever before, thanks to the e-STUDIO206L/256/306 Series. Able to go where larger MFPs would have never been considered, this smaller, more economical series makes document storage, management and production possible. And, the next generation e-BRIDGE open platform allows software solutions to be integrated with Toshiba systems so you can increase productivity and better manage your workflow.
➤ 3,200-Sheet Capacity
➤ USB Direct Scan & Print
➤ Large 9” Touch Screen
➤ Add Paper “On the Fly”
➤ Compact Footprint
➤ Color Scanning
A big step with a small footprint.

You may not know what to expect in today’s business environment, but at least you know what to expect from Toshiba. Impressive performance, unparalleled quality, and exceptional features. Not to mention reliability, dependability and versatility. It’s all part of our relentless pursuit of leading innovation.
Everything you wanted

The e-STUDIO206L/256/306 Series comes fully loaded with the features and benefits you’d expect from Toshiba. Network printing is standard, along with limitless duplex for two-sided output. Color scanning allows you to capture, manage and store images in full color. Compact service modules reduce down time and costs while a 36,600-page toner yield minimizes the frequency of cartridge replacement. There are several energy-saving and eco-friendly features, as well as heightened security. In case all of that isn’t enough, you can choose from a host of options like walk-up faxing, PC-LAN faxing, and advanced scanning to MS Word, Excel, and Searchable PDF.

From start to finish

Starting with a warm-up time of 20 seconds, a first copy time of 3.7 seconds, and output at 20 to 30 pages per minute, you can rest assured this series will keep up with demand. Reduce or enlarge originals if you’d like, from 25% to 400%. You’ll be impressed by the unparalleled image quality of each printed page, at 2400 x 600 dpi. In addition to quality, you’ll also appreciate quantity. The standard paper capacity is 1,100 sheets, and if your workload demands it, you can opt for up to 3,200 sheets. Also, take advantage of the e-STUDIO206L/256/306 Series’ new finisher options, including an inner finisher with hole-punch, contributing to an overall smaller footprint.

> 20 Sec. Warm-up Time
> 4.7 Sec. First Copy Time
> High-Speed Duplex
> Change Toner “On the Fly”
> Multiple Finishing Options
At Toshiba, we work hard to produce MFPs with a level of performance that is unsurpassed. We also realize that is only part of a bigger picture. With security and environmental concerns at an all-time high, as well as the need to manage the workflow more efficiently, we consider those features to be just as important as copy, print, scan, and fax.

Environmental performance
Along with each new series of Toshiba products released, we seek to find new ways of reducing our carbon footprint and yours. The e-STUDIO206L/256/306 Series is more environmentally friendly because we’ve eliminated hazardous substances, reduced paper and toner waste, and continued to participate in new, industry-leading programs and practices like our zero-waste-to-landfill toner recycling. Of course, the e-STUDIO206L/256/306 Series is also Energy Star Tier 2 rated.

More secure than ever
The e-STUDIO206L/256/306 Series utilizes a new Self Encrypting Drive (SED) technology with 256-bit AES Encryption and Automatic Data Invalidation (ADI) that renders the drive useless if removed and installed into another device. This technology is exclusive to Toshiba. In addition, Data Overwrite is standard and meets the Department of Defense requirements by writing over any data stored on the HDD during document processing. For added security, you can also opt for an IPSec enabler. This encrypts data being sent to or from a device.

The Managed Document Experts
At Toshiba, we’ve moved far beyond the box. Our people bring innovative, real-world solutions to all your document management needs. We’ll help you cut costs, secure your documents and reduce your environmental footprint. And if there’s one thing every business and our planet can use right now, it’s managing to do more with less.

So call or visit your nearest Toshiba dealer. We’d be happy to show you how the e-STUDIO206L/256/306 Series outperforms the competition.
