

# PRINT SECURITY

## Security Is a Top Business Concern

### RISKS

Companies of any size are at risk

67%

of SMBs had a cyber attack in the last 12 months

Doing nothing isn't an option

75%

of data breach victims lacked processes, safeguards and resources

Print security is part of the risk

60%

of companies suffer data losses due to print security

### WHY TOSHIBA

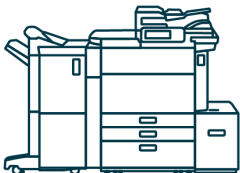

Toshiba has a unique approach to secure print and document environments **that looks holistically at products, processes and people.**

### PRINT SECURITY AT A GLANCE

At the product level, we deliver a secure MFP with in-depth defense across the following layers:

#### FLEET-WIDE SECURITY ADMINISTRATION

- Remote monitoring & management
- Proactive alerts & automatic remediation
- Policy-based security management

#### PHYSICAL & DIGITAL ACCESS PROTECTION

- Restrict who, what, where
- Manage centrally and by role
- Monitor and audit in real-time

#### DEFENSE AT EVERY PRODUCT LAYER

- Self-encrypting hard drive
- Firmware & BIOS whitelisting
- End-of-Life automatic data erase

#### DOCUMENT LIFECYCLE DEFENSE

- Secure document capture
- Encrypt information storage
- Secure document tracking & delivery

### DATA SECURITY IS CRITICAL TO EVERY ORGANIZATION

Toshiba doesn't stop at the device. We work to understand your company on every level so we can recommend the best solutions to ensure a holistic approach to security.
